General Provisions

I. Responsibilities - Grantee

Grantee, in accordance with the general purposes and objectives of this Agreement, must:

A. Publication Rights

- 1. Copyright materials only when Grantee exclusively develops books, films or other such copyrightable materials through activities supported by this Agreement. The copyrighted materials cannot include recipient information or personal identification data. Grantee provides LRE a royalty-free, non-exclusive and irrevocable license to reproduce, publish and use such materials copyrighted by Grantee and authorizes others to reproduce and use such materials.
- 2. Obtain prior written authorization from LRE for any materials copyrighted by Grantee or modifications bearing acknowledgment of Michigan Department of Health and Human Services or LRE's name prior to reproduction and use of such materials. The State of Michigan and/or LRE may modify the material copyrighted by Grantee and may combine it with other copyrightable intellectual property to form a derivative work. The State of Michigan and/or LRE will own and hold all copyright and other intellectual property rights in any such derivative work, excluding any rights or interest granted in this Agreement to Grantee. If Grantee ceases to conduct business for any reason or ceases to support the copyrightable materials developed under this Agreement, the State of Michigan has the right to convert its licenses into transferable licenses to the extent consistent with any applicable obligations Grantee has.
- 3. Obtain written authorization, at least 30 days in advance, from LRE and give recognition to LRE in any and all publications, papers and presentations arising from the Agreement activities.
- 4. Not make any media releases related to this Agreement, without prior written authorization from LRE.

- Guarantee that any payment from LRE shall be considered in full for services rendered and will not be financed by any sources other than LRE under the terms of this Agreement. If funding is received through any other source, Grantee agrees to budget the additional source of funds and reflect the source of funding on the Financial Status Report.
- 2. Make reasonable efforts to collect 1st and 3rd party fees, where applicable, and report those collections on the Financial Status Report. Any under recoveries of otherwise available fees resulting from failure to bill for eligible activities will be excluded from reimbursable expenditures.

Use an accounting system that can identify and account for the funds received from each separate grant, regardless of funding source, and assure that grant funds are not commingled.

The Grantee shall manage all administered grant funds under its control in such a way as to assure reasonable balance among the separate requirements for each funds source.

D. Reporting

Utilize all report forms and reporting formats required by LRE at the start date of this Agreement and provide LRE with timely review and commentary on any new report forms and reporting formats proposed for issuance thereafter. A. Operating Advance

An operating advance may be requested by Grantee to assist with program operations. The request should be addressed to the Finance Contact identified in Part 1, Section VIII. The operating advance will be administered as follows:

- 1. The operating advance amount requested must be reasonable in relation to factors including but not limited to program requirements, the period of the Agreement, and the financial obligation. The advance must not exceed 16.67 percent of operating expenses. Operating advances will be monitored and adjusted by LRE relative to the Agreement amount.
- The operating advance must be recorded as an account payable liability to LRE in Grantee's financial records. The operating advance payable liability must remain in Grantee's financial records until fully recovered by LRE.
- 3. The reimbursement for actual expenditures by LRE should be used by Grantee to replenish the operating advance used for program operations.

B. Reimbursement Method

Grantee will be paid for allowable expenditures incurred by Grantee, submitted for reimbursement on the FSRs and approved by LRE. Reimbursement from LRE is based on the understanding that grant funds will be paid up to the total allocation as agreed to in the approved budget. Grant funds are the first source after the application of fees and earmarked sources unless a specific local match condition exists.

C. Financial Status Report Submission

Schedule of Financial Status Report (FSR) is outlined in Exhibit B - Grant Reporting Requirements.

Grantee representative who submits the FSR is certifying to the best of their knowledge and belief that the report is true, complete and accurate and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of this Agreement. The individual submitting the FSR should be aware that any false, fictitious or fraudulent information, or the omission of any material facts, may subject them to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise.

D. Unobligated Funds

Any unobligated balance of funds held by Grantee at the end of the Agreement period will be returned to LRE within 30 days of the end of the Agreement or treated in accordance with instructions provided by LRE.

E. Indirect Costs

Grantee may use an approved federal or state indirect rate in their budget calculations and financial status reporting. If Grantee does not have an existing approved federal or state indirect rate, they may use a 10% de minimis rate in accordance with 2 CFR 200 to recover their indirect costs. Governmental Grantees with an existing cost allocation plan may budget accordingly in lieu of an indirect cost rate. Non-governmental Grantees may use a cost allocation plan only if the plan was in place prior to December 26, 2014.

F. Distribution of Public Act 2 (PA 2 Liquor Tax) Funds

Public Act 2 (PA2) Liquor Tax funds will be approved for distribution by the Entity SUD Oversight Policy Board. PA2 funds shall be used exclusively in the county from which they were derived. Any surpluses must be sent back to the LRE to administer and use in accordance with the law and at the direction of the Substance Use Disorder (SUD) Oversight Policy Board (OPB).

G. PA2 Funding Requirements

Funding which contains state convention facility development act dollars as outlined in Public Act 206 of 1893 (MCL 211.24e(11)), also known as "PA 2 Funds" for the prevention and treatment of substance use disorders are to be used in the Counties from which the PA 2 Funds originated. Prevention, treatment, and recovery is defined in the Mental Health Code Act 258 of 1974:

- "Substance use disorder prevention services" means services that are intended to reduce the
 consequences of substance use disorders in communities by preventing or delaying the onset
 of substance abuse and that are intended to reduce the progression of substance use
 disorders in individuals. Substance use disorder prevention is an ordered set of steps that
 promotes individual, family, and community health, prevents mental and behavioral disorders,
 supports resilience and recovery, and reinforces treatment principles to prevent relapse. MCL
 330.1100d(13)
- 2. "Substance use disorder treatment and rehabilitation services are "identifiable recovery-oriented services including: (a) early intervention and crisis intervention counseling services for individuals who are current or former individuals with substance use disorder, (b) referral services for individuals with substance use disorder, their families, and the general public, and (c) planned treatment services, including chemotherapy, counseling, or rehabilitation for individuals physiologically or psychologically dependent upon or abusing alcohol or drugs." MCL 330.1100d(14)."
- 3. "Recovery is defined as "a highly individualized process of healing and transformation where the individual gains control over his or her life. Related services include recovery management, recovery support services, recovery houses or transitional living programs, and relapse prevention. Recovery involves the development of a new meaning, purpose, and

growing beyond the impact of addiction or a diagnosis. Recovery may include the pursuit of spiritual, emotional, mental, or physical well-being. MCL 330.1100c(15)".

IV. Agreement Termination

This Agreement may be terminated without further liability or penalty to LRE for any of the following reasons:

- **A.** By either party by giving 30 days written notice to the other party stating the reasons for termination and the effective date.
- B. Upon written notice by either party by failure of the other party to carry out the terms and conditions of this Agreement, provided the alleged defaulting party is given notice of the alleged breach and fails to cure the default within a reasonable period of time, as agreed by the parties.
- C. Immediately if Grantee or an official of Grantee or an owner is convicted of any activity referenced in Part 2 Section III. D. of this Agreement during the term of this Agreement or any extension thereof.

V. Stop Work Order

LRE may suspend any or all activities under this Agreement at any time. LRE will provide Grantee with a written stop work order detailing the suspension. Grantee must comply with the stop work order upon receipt. LRE will not pay for activities, Grantee's incurred expenses or financial losses, or any additional compensation during a stop work period.

VI. Final Reporting Upon Termination

Should this Agreement be terminated by either party, within 30 days after the termination, regardless of the cause of such termination of this Agreement, Grantee must provide LRE with all financial, performance and other reports required as a condition of this Agreement. LRE will make payments to Grantee for allowable reimbursable costs not covered by previous payments or other state or federal programs. Grantee must immediately refund to LRE any funds not authorized for use and any payments or funds advanced to Grantee in excess of allowable reimbursable expenditures.

VII. Severability

If any part of this Agreement is held invalid or unenforceable by any court of competent jurisdiction, that part will be deemed deleted from this Agreement and the severed part will be replaced by agreed upon language that achieves the same or similar objectives. The remaining parts of the Agreement will continue in full force and effect.

VIII. Waiver

Failure by LRE to enforce any provision of this Agreement will not constitute a waiver of LRE's right to enforce any other provision of this Agreement.

IX. Amendments

Any changes to this Agreement will be valid only if made in writing and executed by all parties through an amendment to this Agreement. Any change proposed by Grantee which would affect LRE funding of any project must be submitted in writing to LRE immediately upon determining the need for such change. LRE has discretion to approve or deny the amendment request. Grantee must, upon request of LRE and receipt of a proposed amendment, amend this Agreement.

X. Liability

Grantee assumes all liability to third parties, loss, or damage because of claims, demands, costs, or judgments arising out of activities, such as but not limited to direct activity delivery, to be carried out by Grantee in the performance of this Agreement, under the following conditions:

- A. The liability, loss, or damage is caused by, or arises out of, the actions of or failure to act on the part of Grantee, any of its subcontractors, or anyone directly or indirectly employed by Grantee.
- **B.** Nothing herein will be construed as a waiver of any governmental immunity that has been provided to the Grantee or its employees by statute or court decisions.

LRE is not liable for consequential, incidental, indirect or special damages, regardless of the nature of the action.

XI. State of Michigan Agreement

This Agreement is governed, construed, and enforced in accordance with the laws of the State of Michigan, excluding choice-of-law principles, and all claims relating to or arising out of this Agreement are governed by the laws of the State of Michigan, excluding choice-of-law principles. Any dispute arising from this Agreement must be resolved in the Michigan Court of Claims. Grantee waives any objections, such as lack of personal jurisdiction or forum non conveniens. Grantee must appoint an agent in Michigan to receive service of process.

Action Request

Electronic Submission - Contract # 2161

Committee: FINANCE AND ADMINISTRATION

Meeting Date: 12/5/2023

Vendor/3rd Party: KENT COUNTY

Requesting Department: DEPARTMENT OF STRATEGIC IMPACT

Submitted By: BECKY HUTTENGA

Agenda Item: AGREEMENT FOR PROGRAM SERVICES WITH KENT COUNTY

Suggested Motion:

To recommend and forward to the Board of Commissioner an Agreement for Program Services with Kent County to undertake the grant tasks defined for the Land Transfer Navigators program.

Summary of Request:

To help build the capacity of agricultural land protection entities to assist landowners with transfer and succession in a way that keeps farmland in farming and creates new land access opportunities for next generation producers, American Farmland Trust (AFT), in partnership with USDA-NRCS, has launched the Land Transfer Navigator (LTN) program. To support retiring landowners and the next generation of farmers and ranchers, the program will grow the capacity and skills of agricultural land protection professionals (Navigators) from across the country to dramatically increase the transfer of farm and ranch lands to the next generation of farmers and ranchers.

Eligible entities for LTN include Purchase of Development Rights programs from across the U.S. that hold easements on land protected through USDA's Farm and Ranch Lands Protection Program (FRPP), the predecessor program to the Agricultural Conservation Easement Program-Agricultural Land Easements (ACEP-ALE). Kent County is an eligible entity, but lacks the programmatic capacity to execute the grants tasks. Conversely, Ottawa County is not an eligible entity (because we only hold ACEP easements, not FRPP easements), but we do have the programmatic capacity to perform the grant work. Kent and Ottawa Counties made a proposal to AFT: for Kent to accept the grant agreement as an eligible entity and pass the funds through to Ottawa County, who would perform the grant tasks. AFT approved this arrangement, so the Agreement for Program Services between Kent and Ottawa Counties was developed and is before you today for approval.

The LTN grant awards \$104,200 over 4 years to complete the grant tasks shown in Exhibit A of the Agreement and requires a total of \$52,000 of matching funds, over those 4 years. Exhibit B shows a projection of the potential match funds and sources, which can be in the form of in-kind match personnel time that is currently budgeted for. The Department of Strategic Impact also has funds budgeted that could be used in the event of cash match needs, as noted in Exhibit B. A budget adjustment for the \$104,200 is in the approval process.

The Service Agreement signed by Kent County is expected by December 7, 2023, in time for inclusion with the packet for the full board.

This Memorandum of Understanding ("MOU") dated **October 16, 2023**, sets forth the mutual understanding between American Farmland Trust, a District of Columbia nonprofit corporation having an address at 1150 Connecticut Avenue NW, Suite 600, Washington, DC 20036 ("AFT"), and County of Kent ("Navigator").

AFT is initiating this MOU as part of its <u>Land Transfer Navigators Program</u>. This MOU establishes a framework for cooperation and collaboration.

1. Term

The term of this MOU shall be from November 1, 2023, to October 31, 2024. The term of the MOU shall automatically renew on an annual basis unless either party provides written notice of termination by October 31 of any year during the then current term of the MOU, provided however that in no event shall this MOU automatically renew after October 31, 2027. On an annual basis, AFT and the Navigator organization will review the Deliverables Information Checklist (listed below) to ensure the deliverables have been met. AFT may choose not to renew the MOU if deliverables have not been met and may terminate the MOU with prior written notice to the Navigator should the Navigator otherwise fail to abide by the terms of this MOU. The Navigator organization may notify AFT at the end of any year that it is unable or uninterested in continuing to serve as a Navigator, in which case this MOU shall be terminated.

2. Responsibilities of Navigator Organizations

During the term of this agreement, selected Navigator organizations will:

- Commit to participate in the Land Transfer Navigator Program for four years beginning November 2023 and ending October 2027 (subject to the termination provisions above).
- Dedicate participating staff to attend all training and networking activities that include:
 - A virtual kick-off meeting on November 14, 2023, from 1:00 3:00 p.m. EDT.
 - A 2-3-day in-person training held annually. The first is scheduled for January 29 31,
 2024 in Savannah, Georgia. As a national program, the training location will move from year to year.
 - Up to 10, 2-hour virtual engagements annually for additional training, networking, and peer-to-peer learning.
- Develop a Land Transfer Navigator Action Plan describing actions the entity and participating staff will take to promote farm and ranch transfer and succession strategies with producers and landowners, including land access opportunities for next generation farmers and ranchers.
- Deliver information, direct technical assistance, and/or coaching to 120 farmers, ranchers and/or landowners over four years in support of the program goal to increase the transfer of farm and ranch land to the next generation of producers. This number can include people with whom the organization is already working to support.
- Participate in all program evaluation components. The evaluation will include Action Plan checkins, pre- and post-training surveys throughout the course of the project, as well as participation in interview sessions with AFT program staff and consultants.

Please see the "Deliverables Information Checklist" on page 4 for more information.

4. Participating Staff Contact Information

Please identify the primary staff member who will participate in all program components. If the individual affiliated with the completion of this project within the Navigator organization is no longer able to complete the required deliverables, the organization will identify a successor within the organization to take on the responsibilities of the MOU.

5. Compensation

Navigator organizations will receive \$25,000 per year for four years (\$100,000 total) for activities listed in #2 above, "Responsibilities of Navigators". The yearly compensation will be paid in two equal amounts. During the term of this MOU, the first annual payment will be made within 60 days of November 1 and the second payment will be processed on May 15 of each year provided Navigator organization has completed, or is making progress towards completion, of the Deliverables and the inkind match requirements on a timely basis.

Funding for this project is provided through USDA and this Agreement is subject to availability of funds from USDA. A federal government shutdown may result in a delay in AFT's ability to disburse grant funds on the schedule above. In such event, disbursement will be made when funds become available.

Navigator organizations shall be solely responsible for paying such federal, state and local income, social security, withholding or other taxes, assessments or contributions required in connection with these payments.

Compensation is per organization and not per staff member participating. Organizations wishing to divide Navigator responsibilities among multiple staff will be permitted to do so with prior approval from AFT. Additional staff participation beyond the awarded amount to the Navigator organization will be at the expense of the organization; however, additional staff participation will count toward the organization's match requirement and is welcomed for all virtual trainings. (See 7. In-Kind Match for more information)

Navigators will be required to complete all deliverables contained in the Deliverables Information Checklist.

6. Travel Reimbursement

In addition to the \$25,000-year award, each entity is allotted a travel budget of \$4,200 total **to use during the four years of program participation** for travel-related expenses. Expenses may include travel to the annual in-person training or any activities listed in the Navigator's Action Plan, including direct technical assistance to farmers and landowners or engagement with other peer professionals. Hotel accommodation and food, once at the annual in-person meeting, will be provided by AFT.

Please note, that payment of travel funds will be reimbursed to the Navigator organization by AFT, unless otherwise pre-arranged. Reimbursement is dependent on proper expense tracking and submission of receipts.

Additional staff (those not designated as primary staff in this MOU) may be permitted to attend the inperson training at the expense of the partnering organization, pending space availability and advance approval from AFT.

7. In-kind match

Awarded entities must provide documentation of an in-kind match totaling \$52,000 over the course of the four-year program (see Deliverables Information Checklist below). The in-kind match includes activities conducted by the Navigator organization beyond the annual award or travel reimbursement. Projected eligible activities must be documented in the Action Plan and reviewed annually with AFT.

- Examples of activities that qualify for the match include but are not limited to:
 - Staff time on Land Transfer Navigator program activities
 - Expenses affiliated with hosting a relevant workshop for farmers and landowners (e.g., printing, mileage, supplies, catering, meeting room rental)
 - Speaker or consultant fees to enlist an outside expert
 - o Additional mileage to travel to meetings with farmers and landowners
 - Fees for participation in an event at which project goals identified in the Action Plan are promoted
 - Additional staff participation in Land Transfer Navigator training and networking events
 - Costs associated with the purchase or donation of a conservation easement on agricultural land that is supporting a land transfer (excluding those costs covered through federal funds)
- Federal funding sources DO NOT qualify as part of the in-kind match.

8. Work Product

AFT and Navigators may duplicate and distribute copies of any and all written, electronic, audio, and visual materials produced by AFT in the performance of this MOU. However, all written work, data, analysis, reports, graphics, documentation, and materials generated by AFT pursuant to this MOU (collectively, the "Work Product") shall be the sole and exclusive property of AFT, and all original documents, exhibits, samples or other materials provided by AFT to the Navigator in connection with the services provided under this MOU shall remain the property of AFT and shall be returned to AFT immediately upon request.

Deliverables Information Checklist Upon Annual review, met deliverables will be checked and signed off by both organizations.

Land Transfer Navigator Program Supporting Transfer and Access on Agricultural Lands > GRANT GUIDELINES <

PURPOSE AND OVERVIEW

As the average age of farmers, ranchers, and agricultural landowners continues to rise, the working land they steward is at a moment of seismic transition. An estimated 40% of agricultural land is projected to change hands by 2035, and this point of ownership transfer is when agricultural land is most vulnerable to development. Farm and ranch transfers are complicated and take specific skills and knowledge to navigate; this is especially true for the increasing number of farm and ranch transfers that are not to family relatives, but to unrelated younger and more diverse producers. Successful land transfers are implemented over time, by building relationships within families and between diverse land seekers and landowners.

Agricultural land trusts, public Purchase of Agricultural Conservation Easement (PACE) programs, and other entities can play an important role in helping landowners navigate farm transfer and succession in a way that keeps farmland in farming and creates new land access opportunities for next generation producers. To help build the capacity of agricultural land protection entities to assist landowners in this way, American Farmland Trust (AFT), in partnership with USDA-NRCS, has launched the *Land Transfer Navigator* program. To support retiring landowners *and* the next generation of farmers and ranchers, the program will grow the capacity and skills of agricultural land protection professionals (Navigators) from across the country to dramatically increase the transfer of farm and ranch lands to the next generation of farmers and ranchers.

In addition to building a cohort of Navigators within the agricultural land protection community, this program will:

- Build regional networks of service providers including attorneys, appraisers, real estate agents, land trusts, financial planners, and lenders to help move the transfer of land forward.
- Provide farmers, ranchers, and landowners microgrants to implement land transfer plans.
- Create an online Farm and Ranch Transfer Resource Hub, a one-stop shop of online resources to help owners transfer their land to new producers, available through the Farmland Information Center.
- Create a national Farm Link Finder with an inventory of existing programs
- Highlight the role of agricultural conservation easements in the transfer process.
- Elevate farm and ranch transfer stories to support people navigating the process.

Beginning in 2024 and concluding in September 2027, AFT will provide Navigators with training, skill development, and peer-to-peer learning along with technical and financial assistance so they may:

Assist farmers, ranchers, and landowners in planning their future and the future of the land they
steward and addressing their specific needs at critical transition points. By providing coaching
and technical assistance to those who are considering transfer options or beginning the transfer

- process, Navigators can help to mitigate agricultural land loss and keep agricultural land in agriculture.
- Support a diverse, new generation of farmers and ranchers looking to gain access to land by facilitating connections between landowners and land seekers.
- Engage in impact measurement and outreach to evaluate and promote the work.

For the full program timeline see Appendix A.

ELIGIBLE APPLICANTS & AWARD AMOUNT

AFT seeks applications from land trusts, public PACE programs (state or county), and other entities from across the U.S. that hold easements on land protected through USDA's Farm and Ranch Lands Protection Program (FRPP), the predecessor program to the Agricultural Conservation Easement Program-Agricultural Land Easements (ACEP-ALE). According to the list of FRPP easement holders provided to us by NRCS, your organization holds at least one FRPP-funded easement.

Entities must be interested in working with landowners and producers to encourage farm and ranch transfers, succession planning, and land access. With input on broader program goals from USDA-NRCS and a National Advisory Committee, AFT has developed Navigator criteria and will select 35 eligible entities to participate. Collectively, entities will represent geographic and demographic diversity.

This is a competitive application process. Priority will be given to applicants that meet one or more of the following criteria as expressed in the <u>application</u>:

- Demonstrated interest in advancing the transfer of agricultural land
- Significant number of easements that protect land supporting an active farm or ranch operation, or significant agricultural acreage (e.g., cropland, pasture, rangeland) under easement
- Experience, or demonstrated interest, in supporting next generation farmers, including historically underserved producers.
- Experience, or demonstrated interest, in supporting landowners plan for transfer or succession
- Commitment to participating in four years of ongoing learning and networking.

If selected, **entities will receive \$25,000 each year for four years (\$100,000 total)** *for one participating staff* to attend in-person and virtual trainings, provide direct coaching and technical assistance to farmers and landowners, and engage in peer networking. Continuity of staff is strongly preferred over the four-year period, but we understand and will accommodate staff turnover. There will also be opportunities for additional staff to participate in Land Transfer Navigator trainings and networking events.

Selected entities will be allotted an additional travel budget to utilize over the course of the program to offset travel expenses. More details are included in "Disbursement of Funds" below.

REQUIREMENTS FOR AWARDED ENTITY PARTICIPATION

- Organizational commitment to participate in the *Land Transfer Navigator* Program for four years beginning November 2023 and ending October 2027.
- Dedicate participating staff to attend all training and networking activities that include:
 - o A 1.5-hour virtual kick-off in November 2023.

- A 2-3-day in-person training held annually. The first is projected for late January 2024. As a national program, the location will move from year to year.
- Up to 10, 2-hour virtual engagements annually for additional training, networking, and peer-to-peer learning.
- Develop a Land Transfer Navigator Action Plan describing actions the entity and participating staff will take to promote farm and ranch succession planning and support land access for landowners and farmers, including those who own or manage land on which the organization or agency holds an easement.
- Deliver information, direct technical assistance, or coaching to 120 farmers, ranchers and/or landowners (or 30 per year for four years) in support of the program goal to increase the transfer of farm and ranch land to the next generation of producers. This number can include people the organization is already working with.
- Participate in all program evaluation components. The evaluation will include Action Plan checkins, pre- and post-training surveys throughout the course of the project, as well as participation in interview sessions with AFT program staff and consultants.

REPORTING AND IN-KIND CONTRIBUTION REQUIREMENTS

In-Kind Match:

Awarded entities must provide documentation of an in-kind match totaling \$52,000 over the course of the four-year program (see schedule in Appendix A). The in-kind match includes activities conducted by the Navigator Organization beyond the annual award or travel reimbursement. Projected eligible activities must be documented in the Action Plan and reviewed annually with AFT.

Submitted By	: Marcie Ver Beek
Agenda Item:	County Clerk/Register Position Upgrade Request

Suggested Motion:

To approve and forward to the Board of Commissioners a proposal to change one Case Records Technician II position (grade 5) to a Senior Case Records Technician (grade 7) and eliminate one Case Records Tech I (IV-D) (grade 4) at a cost of \$3,278.

Summary of Request:

In 2023, Circuit Court Records added additional tasks related to Michigan IV-D Child Support, which includes collections processes and additional notifications to parties involved. In the Fiscal Year 2024 budget, three new IV-D positions were funded for the Clerk's Office. Upon implementation of the new tasks, it has been determined that upgrading the team lead (Case Records Tech II) to a Senior Case Records Technician would better fit the structure and job functions performed, instead of one of the newly approved IV-D positions. In addition, the position upgrade will allow for a Senior Case Records Technician to be located at the Grand Haven Courthouse and in the new West Olive courthouse to provide work direction and enhanced support to staff.

2024 Group T and Unclassified Benefits and Compensation Changes

This proposal lists the requested changes to group T and unclassified benefits and compensation starting January 1, 2024. Non-bargaining unit employees are split into several categories:

- Group T: These employees are FLSA non-exempt and eligible for overtime.
- Unclassified: These employees are typically your management-level employees. They are FLSA-exempt and not eligible for overtime.
- Seasonal employees: These employees work in parks, with most working between April through September. These employees are non-benefited. Pay increases are based on the percent change that minimum wage changes annually.
- Non-benefited employees: These employees work less than 20 hours per week on average and
 receive no benefits. These positions typically receive the same percentage cost-of-living increase
 as Group T. There are a couple of positions that are at a set amount and do not increase due to
 grant or other requirements.

These changes are expected to have a positive impact on recruitment and retention and will increase the incentive for employees to promote into management.

This proposal does not include any employees that are in a union, even if a collective bargaining agreement does not exist or is not in effect.

Group T Changes

- 1. Cost of living increase of 6% starting January 1, 2024.
- 2. Change the MERS Defined Contribution match to employee contribution of 6% and employer contribution of 8%.

Currently, employees may elect between 3-6% and the employer matches the same. Due to IRS rules, we cannot simply increase the employer match and allow the employee to select from a range. The requested change will move the employee mandatory contribution to 6% and the employer contribution to 8%.

This change will apply to current employees in the Defined Contribution Plan and new hires. Employees in the Defined Benefit plan are not affected.

- 3. Provide a 100% payout of sick time accrual at retirement. Currently, sick time is not paid out at retirement.
 - Currently, there is no payout of sick time. This provides an incentive to use sick time only as needed, leading to less overtime costs.
- 4. Provide an annual 75% payout of sick time earned above the maximum, starting in January 2025.

Currently, there is no payout of sick time. This provides an incentive to use sick time only as needed, leading to less overtime costs.

For example, an employee has 90 hours of sick time accumulated. The maximum allowed is 96 hours. Group T is provided with 48 hours of sick time every January 1. So this employee would have a sick time balance of 96 hours and be paid 31.5 hours.

- 5. Add one additional floating holiday.
- 6. Increase vacation accrual by four days.
 - In 2021, a wage study was completed by an external consultant. The consultant listed a recommendation in their report to increase vacation time to match the average of other counties more closely.
- 7. Replace the promotion language (page 27 of Group T manual) with "(e) Step placement following promotion will be determined by the department head and must be approved by the Human Resources Director, with a maximum increase not to exceed 15%."
 - Currently, if an employee is currently outside of Group T and is promoted to Group T, they may receive a maximum 5% pay increase. If the employee is currently in Group T and is promoted within Group T, the employee will be placed at the step closest to a 5% increase per paygrade increase up to 15%.

The current language was written when there were separate pay scales for each group. Now that many groups are on the Universal Pay Scale, this language is restricting and removes the ability for the department head to place the promoted hire on the scale as appropriate for their department.

- 8. Remove all language referring to "Sick Bank Elimination Account". This is a legacy system, and it is no longer applicable to any employees.
- 9. Change the language under 'Miscellaneous Provisions' regarding the annual clothing allowance to "The County shall reimburse each Environmental Health Specialist, hazardous waste worker, and Custodian up to \$100 per year toward clothing, after receipt of proof of purchase. The County shall reimburse each Maintenance Worker and each Water Resources Office employee that performs field work on a regular basis \$200 per year toward clothing, after receipt of proof of purchase. The reimbursement will be prorated based upon the employee date of hire and/or termination in the classification."

The language change provides the allowance to all employees that perform field work in the Water Resources Office, without the need to update the group manual on a regular basis.

Unclassified Group Changes

1. Cost of living increase of 6% starting January 1, 2024.

2. Add one additional pay step (step 8) starting with pay grade 16 and for second-in-command deputy directors within paygrades 14 and 15. The additional step will be 5% higher than the previous step 7.

This will provide a retention incentive to those currently at the top step (7). The current pay spread for a pay grade is 30%; this change would create a 35% pay spread.

3. Change the MERS Defined Contribution match to employee contribution of 6% and employer contribution of 8%.

Currently, employees may elect between 3-6% and the employer matches the same. Due to IRS rules, we cannot simply increase the employer match and allow the employee to select from a range. The requested change will move the employee mandatory contribution to 6% and the employer contribution to 8%.

This change will apply to current employees in the Defined Contribution Plan and new hires. Employees in the Defined Benefit plan are not affected.

- 4. Provide a 100% payout of sick time accrual at retirement. Currently, sick time is not paid out at retirement.
- 5. Provide an annual 75% payout of sick time earned above the maximum, starting in January 2025.

For example, an employee has 90 hours of sick time accumulated. The maximum allowed is 96 hours. Unclassified employees are provided with 48 hours of sick time every January 1. So this employee would have a sick time balance of 96 hours and be paid 31.5 hours.

- 6. Add one additional floating holiday.
- 7. Increase vacation accrual by five days.
 - In 2021, a wage study was completed by an external consultant. The consultant listed a recommendation in their report to increase vacation time to match the average of other counties more closely.
- 8. Reinstate and revise the longevity plan so employees annually receive \$500 with five years of service and an additional \$100 for every year of service thereafter, with a maximum of \$3,000.
- 9. Provide one week of vacation at start instead of after six months. The Unclassified manual is the only manual that has a six-month waiting period before receiving vacation, which has deterred applications when hiring.
- 10. Replace the promotion language (page 3-4 of Unclassified manual), to "5. Step placement following promotion will be determined by the department head and must be approved by the Human Resources Director, with a maximum increase not to exceed 15%." Additionally, change

current language: "If an employee is being promoted into a classification that is at or above the Universal Wage Scaler Grade 16, the County Administrator may place the promoted employee at any step in the new pay grade that he/she deems appropriate" to Universal Wage Scale Grade 14 to allow for more flexibility when promoting into a management position.

Currently, if an employee is currently outside of the Unclassified group and is promoted to the Unclassified group, they may receive a maximum 5% pay increase. If the employee is currently Unclassified and is promoted within the same group, the employee will be placed at the step closest to a 5% increase per paygrade increase up to 15%.

The current language was written when there were separate pay scales for each group. Now that many groups are on the Universal Pay Scale, this language is restricting and removes the ability for the department head to place the promoted hire on the scale as appropriate for their department.

- 11. Remove all language referring to "Sick Bank Elimination Account". This is a legacy system, and it is no longer applicable to any employees.
- 12. Add language to provide additional holiday pay to Juvenile Detention Shift Supervisors, similar to the Juvenile Collective Bargaining Agreement.

Currently, shift supervisors are required to work some holidays. There is no additional incentive to work a holiday because all shift supervisors are paid for the same holiday, whether working or not. This payment structure would provide an incentive for shift supervisors to work on a holiday.

Shift Supervisors in Juvenile Detention shall be paid at the rate of time and one-half for all hours worked on a holiday.

13. Add language to provide additional court pay to Lieutenants, similar to the sergeant's collective bargaining agreement:

If a Lieutenant in the Sheriff's Office is called as a witness in a judicial proceeding (i.e. court appearance or hearing) while off duty for reasons connected with their County employment, shall receive a stipend of \$100.00.

Seasonal Employees

There is no specific request as seasonal employee wages are increased by the percent change of minimum wage on an annual basis.

Non-benefitted Employees

It is requested that non-benefited employees receive the same cost-of-living adjustment as Group T. Positions exempt from this adjustment are Medical Examiner Investigators and the CSHCS Parent Consultant.
