Ottawa County Purchase of Development Rights Program Scoring Criteria

The Ottawa County Farmland Development Rights Ordinance (13-1), as amended, authorizes Ottawa County to purchase development rights to farmland from landowners who voluntarily offer those rights for sale. The purpose of this ordinance is to protect farmland from future development. These scoring criteria are designed to prioritize land for preservation based on specific characteristics identified by the local Agricultural Preservation Board. Each year, parcels will be prioritized based on score; however, the Agricultural Preservation Board will also evaluate each parcel individually and, if deemed necessary, reprioritize the applications, per Section 7F of the Ordinance. These scoring criteria are evaluated annually and revised as needed.

1. AGRICULTURAL CONSERVATION EASEMENT PROGRAM (ACEP) SCORE

Priority is placed on applications that have a higher probability of receiving ACEP funding from the Natural Resource Conservation Service. Further, the ACEP Ranking Form addresses a number of criteria that are valued by Ottawa County. Total points awarded on the ACEP Ranking Form, which is included in its most current version as an addendum to this Scoring Criteria, will be entered here. *400 points possible.*

Points for Criterion 1:

2. DEVELOPMENT PRESSURE

Ottawa County is the fastest growing county of the top ten most populous counties in the State. Its population is projected to grow by 6.7% by 2030. Population density in 2022 was 534 person per square mile. Priority is placed on preserving parcels located in townships have higher projected population growth and density, both indicators of potential development pressure that could lead to farmland loss. *55 points possible.*

- Jamestown..... 55 pts
- Blendon..... 50 pts
- Tallmadge 45 pts
- Park..... 40 pts
- Zeeland..... 35 pts
- Crockery..... 30 pts
- Olive 25 pts
- Robinson 20 pts
- Polkton..... 15 pts
- Wright 10 pts
- Chester 5 pts

Points for Criterion 2:

3. ECONOMIC IMPACT

Priority is placed on farmland that produces one or more of the many specialty crops (as defined by the [United States Department of Agriculture](#)) that are critical to Ottawa County’s agricultural industry or produces products in one of the top five market sectors in ag receipts (2022 Ag Census). In addition, agricultural products that are sold locally have a greater economic impact. Note: points are awarded only for the crop that comprises the majority of the revenue for the farm enterprise. *35 points possible.*

- Specialty crop(s) and/or Nursery/greenhouse/floriculture/sod 25 pts
- Poultry/eggs 20 pts
- Fruit/tree nuts/berries 15 pts
- Grains/oilseeds/dry beans/ 10 pts
- Products are direct marketed locally 10 pts

Points for Criterion 3:

4. CONSERVATION PRACTICES

Priority is placed on property on which conservation best practices are planned and/or implemented to help maintain the agricultural productivity and environmental sustainability of the land. Points are awarded for properties that have had any of the following completed or updated within the past three years. *55 points possible.*

- RMS Level Conservation Plan 10 pts
- Comprehensive Nutrient Management Plan 10 pts
- Irrigation Management Plan 10 pts
- MAEAP Verified – Cropping 10 pts
- MAEAP Verified – Livestock 10 pts
- MAEAP Risk Assessment(s) completed (only if not MAEAP verified in any systems)..... 5 pts

Note: zero points will be awarded if the farm operation, in the last three years, has been found by the Michigan Department of Agriculture and Rural Development to be in violation (problem not resolved within the allotted time frame) of the Michigan Right to Farm Act or has been found to be in violation of State environmental statutes.

Points for Criterion 4:

5. FUTURE SUSTAINABILITY FOR AGRICULTURAL PRODUCTION

Priority is placed on parcels located in areas that have the greatest ability to sustain agriculture in the long term with the least amount of conflict with neighboring landowners and competing land uses. This approach provides the benefits of clustering for farm related land use. Points can be awarded for each of the bullet points below that apply to the property. *55 points possible.*

- Future land use planned for agriculture 20 pts
- 100% of directly adjacent parcels are zoned for agriculture 15 pts
- >2 miles from municipal water connection 10 pts
- Succession and/or Land Transfer plan is documented 10 pts

Points for Criterion 5:

RE: Informal Appeal Hearing Decision for Ottawa County, Agricultural Conservation Easement Program (ACEP) Application Ineligibility (Ottawa Co.)

Dear Ms. Huttenga:

In a letter dated May 16, 2024, you were informed that the county's ACEP application was deemed ineligible because the necessary matching funds were not available at the time of application. In response to that letter, you requested the NRCS State Conservationist review the above decision, which resulted in an informal review hearing via Microsoft Teams on July 2, 2024.

The information and testimony that you and your colleagues provided during the hearing was considered. It is my determination that Ottawa County demonstrated that they had sufficient funds available for acquisition if additional funding from the Michigan Farmland and Open Space Preservation Program was not received.

Additional ACEP funds were requested from NRCS to fund your application. This request was successful, and your ACEP application was accepted. Please continue to work with Brian Thomas, ACEP Coordinator, to complete the application and contract process. He can be reached via email or at (517) 324-5259.

NRCS appreciates your continued interest in NRCS conservation programs, and we look forward to working with you in the future.

Sincerely,
