THE ORGANIZATION

The County

The Board of Commissioners provides oversight, establishes policy, and builds the strategic plan for County operations. The County is governed by an 11-member elected Board of Commissioners (“Board”) and provides a wide range of services to residents, including law enforcement, administration of justice, community development and enrichment, health and human services, and recreation.

Ottawa County has 24 departments which range greatly in services. The County Administrator directs and manages all county operations, including the oversight of 14 county departments and management of the county budget. The remaining operations are managed by either elected officials (Clerk/Register of Deeds, Water Resources Commissioner, Prosecutor, Sheriff, and Treasurer), statutory boards (Community Mental Health), or the judiciary.

Although considered legally separate entities, the County also works closely with its seven component units – Road Commission, Central Dispatch Authority, Public Utilities System, Land Bank Authority, Office of the Water Resources Commissioner, Brownfield Redevelopment Authority, and Economic Development Corporation; as well as its two blended component units – Building Authority and Insurance Authority to provide the citizens of the County additional services. (Optional info)

The County has an annual operating budget for FY25 of approximately \$284 million all funds total budget and an estimated \$121 million general fund budget. The County employs about 1,200 employees, with about 900 being full-time. Ottawa County is known for its strong fiscal stewardship and has a healthy financial status with the highest credit ratings from Fitch Ratings and Moody’s Investment Service.

Thanks to the sound management by the Board, elected officials, and appointed county administration, the County maintains a healthy financial status, including high credit ratings, low interest rates, and the sixth lowest general property tax rate in the state.

The Board

The Board of Commissioners is comprised of 11 members elected from districts of equal population. The Board is elected to promote and preserve the freedom and constitutional rights of the people for future generations of all who live here. The Board's priority is to uphold the Constitutions of the United States and the State of Michigan, which protect the natural, God-given rights to life, liberty, and the pursuit of happiness, while ensuring the County’s statutory responsibilities to the people are met. **By pursuing this priority, the Board seeks to make Ottawa County Where Freedom Rings, which is the vision and motto of the county.**

DRAFT

The Commissioners establish policies that primarily deal with activities of the county government that include county budget, appropriations, personnel, capital improvements, and county services. The Board provides oversight of the day-to-day operations by appointing a county administrator and assuring that county department leaders carry out their tasks effectively, efficiently, and with fiscal responsibility.

The Board of Commissioners is uniquely situated to keep an eye on the future, anticipating changes in society and legislation, and, through their policy setting role, work to keep the entire county operation focused on excellence and cost-effectiveness in their provision of services to citizens.

In January 2023, the County welcomed 8 new board members who are currently serving a two-year term. However, as the Michigan Legislature recently changed the term to four years, commissioners elected in 2024 will begin a four-year term in January of 2025. Thanks to the sound management by the Board, elected officials, and appointed county administration, the County continues to maintain a healthy financial status, including high credit ratings, low interest rates, and the sixth lowest general property tax rate in the state.

Core Values

In 2023, the Board of Commissioners passed a resolution to adopt a new county vision statement, “Where Freedom Rings”. The resolution included,

“WHEREAS, the Ottawa County Board of Commissioners swore an oath to uphold the Constitutions of the United States and the State of Michigan, which protect the rights to life, liberty, and pursuit of happiness, and preserve the right of parents to determine the care of their children. The Constitutions also guarantee freedom of religion, speech, and assembly, as well as due process of law; and,

WHEREAS, constitutional freedoms are not to be suspended in times of crisis; and,

WHEREAS, the people of Ottawa County overwhelmingly spoke with their vote to restore the constitutional rights of the people as a first priority of the Ottawa County Board of Commissioners; and,

WHEREAS, “Where Freedom Rings”—where individual freedom, parental rights, and religious and conscience freedom are protected, all people belong.” (Full resolution [here](#).)

The County’s **mission statement** is “Ottawa County is committed to excellence and the delivery of cost-effective public services”.

The Board of Commissioners adopted four goals to direct the County’s work. They are:

1. To maintain and improve the strong financial position of the County.
2. To contribute to the long-term economic, social, and environmental health of the County.
3. To maintain and enhance communication with citizens, employees, and other stakeholders.
4. To continually improve the County's organization and services.

Ottawa County has a rich history rooted in hard work, faith, and family, and is one of Michigan's most conservative counties. The county's heritage includes the influence of Dutch settlers who moved here seeking a place where they could freely live and worship. The Board seeks to protect and advance the family-oriented, time-honored culture and values that make Ottawa County attractive, while providing core governmental services utilizing responsible cost management.

OPPORTUNITIES

What could a new Administrator accomplish in the first year that would make them a successful hire?

- 1. Move Ottawa County towards data-driven decisions by creating a strategic plan for the county and its departments which includes the regular use of metrics.** Carry out the long term strategic plan through an annual operating plan for the county and each department which utilizes a data dashboard. Work towards department-specific alignment, with 3 primary goals identified for each department.
- 2. Implement a standardized process of monthly measurement and reporting of individual department performance/outcomes to the BOC in comparison to the annual and strategic plan goals.** (How many individuals served, services provided, etc.). Facilitate the ability to evaluate funding requests/related decisions with data to fulfill the annual and strategic plan for departments.
- 3. Complete an assessment of community needs and available resources, to include a comparison with the statutory requirements of the county as related to the provision of mandated vs. non mandated services, as well as an assessment of appropriate collaborations with other government entities and non-profit organizations.** What are the needs of community members vs. what the county is providing with taxpayer dollars? How can we better align the needs of the community with county resources? Is there duplication of services across departments and/or organizations?
- 4. Strengthen the grant approval process to improve informed decision making which includes weighing both the benefits and the risks/trade-offs of individual grants.**

DRAFT

- 5. Enhance communications with the people of the county through continued development of the communications department.**
