Section 2: Background Information

County Information:

Beautiful Ottawa County is located in the southwestern section of Michigan's Lower Peninsula. Its western boundary is formed by Lake Michigan and its eastern boundary is approximately 30 miles inland. The County landmass consists of a total area of 565 square miles with over 300 miles of water frontage. The County is composed of 6 cities, 17 townships, and 1 village. Ottawa County has been named the fastest growing population in the state. Between 2010 and 2019 there was a 10.63% increase in population. The estimated population in the County in 2019 was 291,830. This significant population growth is expected to continue in the years ahead.

The current County's legislative body is an eleven-member Board of Commissioners which is elected from single-member districts, determined by population, on a partisan basis for two-year terms. The Board of Commissioners provides oversight, establishes policy, and builds the strategic plan for County operations.

Current Environment:

Ottawa County Community Action Agency operates/administers a Home Weatherization Assistance Program for low-income persons. The U.S. Department of Energy's (DOE) Weatherization Assistance Program (Weatherization) reduces energy costs for low-income households by increasing the energy efficiency the homes, while ensuring their health and safety. The Program prioritizes services to the elderly, people with disabilities, and families with children. The Agency's professionally trained weatherization auditors/inspectors use computerized energy audits and advanced diagnostic equipment to determine the most cost-effective measures appropriate for each home. Typically measures may include installing, insulation, sealing ducts, tuning and repairing heating and cooling systems, mitigating air infiltration, and reducing electric base load.

Section 3: Scope of Services

The Ottawa County Action Agency (also referred to as "The Agency" or "OCCAA") is soliciting quotations for weatherization audit/inspection services. All audit/inspections work is to be performed according to the standards set forth by the United States Department of Energy and the Michigan Department of Health and Human Services, and the Ottawa County Community Action Agency.

It will be the responsibility of the auditor/inspector to conduct the site visit and enter data into the "Inspection TAB" required on the IWC and complete the NEAT/MHEA audit in its entirety. This information will be entered as well as the blower door testing and health and safety inspection/testing. All work must be done in compliance with Michigan Department of Health and Human Services (DHS) standard of requirements in the State of Michigan Field Guide, Community Services Policy Manual (CSPM), and the Standard Work Specification (SWS).

If the inspector is completing a quality control inspection (QCI), he/she is required to use the Quality Control checklist that is provided with each job and is required to sign and verify the work completed on the job. If applicable the auditor/inspector is required to report any incomplete job or Health and Safety concerns to Ottawa County Community Action Agency.

Ottawa County Community Action Agency will determine the number of contractors needed to complete required production in a timely manner. Contractors will be assigned work based on capacity and timeliness at the time the audit or inspection is needed.

If the type of inspection being requested is other such as Housing Quality Standards (HQS) the required checklist will be completed and submitted after the completion of the inspection.

A. Training:

Per the Community Services Policy Manual (CSPM) Section 618 and 618.1 the following requirements are outlined.

ASHRAE 62.2, or current version, training is also required and shall be provided by an accredited facility and a qualified instructor.

Housing Quality Standards Training (HQS) if applicable.

Proof of satisfactory training for the completion of the said trainings/certifications must be provided with submission of the RFQ. If said trainings outlined above have not been completed prior to the RFQ submission deadline, proof of training completion or scheduled completion must be provided prior to contract issuance.

The contractor, as well as any employee of the contractor who will be performing any work for Ottawa County Community Action Agency, may be required to attend appropriate training sessions upon the direction of the Weatherization Program. All reasonable efforts are made to schedule training at convenient times for the contractor and their employees. Reimbursement of expenses to attend required or recommended training may be available along with a \$300.00 daily stipend for attending.

These limits may be provided in single layers or by combinations of primary and excess/umbrella policy layers. These coverages will protect the vendor, and County and their employees, agents, representatives, invitees, and subcontractors against claims arising out of work performed or products provided. The County and its elected officials, officers, employees, agents, and volunteers are to be additional insureds and a thirty-day notice is required to the County in the event of coverage termination.

Ottawa County Community Action Agency Weatherization Program

Fact Sheet

Introduction

Ottawa County Community Action Agency operates a Home Weatherization Assistance Program for low-income persons. This program, funded by Federal and State weatherization resources, is designed to increase the energy efficiency of homes occupied by low-income persons and thereby reduce heating and fuel usage. Ottawa County Community Action Agency will engage a contractor (s) to weatherize approximately 40 homes between July 2022 through June 2023. Work performed may be minimal (caulking and weather stripping) to extensive (insulation and re-roofing, etc.). As many as 40% of the units may be mobile homes.

Weatherization Program Review of Activities

The following describes the general sequence of activities involved in the Weatherization Assistance Program of Ottawa County:

1. The Agency receives a request for weatherization from a client interested in the program or by referral by another local agency. The client is interviewed; the Agency verifies the client is eligible to participate in the program, that the residence qualifies for weatherization, and provides energy education to the client. The Agency prioritizes the applications, which are then forwarded to a certified inspector for an energy audit.
2. The inspector performs an energy audit of the dwelling according to State and Federal guidelines. This energy audit includes the preparation of a work order that is generated in FacsPro, the State's Weatherization management software.
3. The inspector runs a NEAT/MHEA audit (s) and selects a contractor from a roster based on prices obtained in the bidding process of the RFP. The work order is assigned, with Agency approval, authorizing work to begin.
4. Contractors must complete all assigned jobs. All measures, materials, and labor must comply with the Michigan Department of Health and Human Services (DHHS) Standards (NREL – Standard Work Specifications [SWS]) as well as the State issued Customer Services Policy Manual (CSPM).

5. The inspector may be asked by contractors to add or delete from the job order either partial or complete measures. The inspector will determine if such additions or deletions are appropriate based on the energy audit conducted, including test results. A change order will be completed and will approve/disapprove such change prior to any work being added or deleted.
6. A quality control inspection is performed by a certified QCI (Quality Control Inspector) of the unit as soon as possible upon notification of completion of the work. If a problem exists at this point due to improper or incomplete work on the part of the contractor, the contractor will be notified of the problem and need for correction and may be charged a re-inspection fee for each subsequent post-inspection.
7. Following final approval by the inspector, the work order with the contractor's invoice is submitted to Ottawa County Community Action Agency requesting payment for all completed work. Payment will be based on prices established by the Agency and contained in the Private Contractor's Contract.
8. In most instances, payment will be issued no later than 30 days after receipt of invoice.

The amount of work available will be based on funding availability and the number of applications necessary to meet Agency goals as determined by the Agency.

All contractors must receive specified training by Michigan Department of Health and Human Services (DHHS) and/or Ottawa County Community Action Agency, to provide weatherization work. Specific certifications will also be required, such as Indoor Air Quality, Lead Safe Work Practices and/ or LRRP and MIOSHA 10 and comprehensive training.

Method of Payment

The Contractor must submit a request for payment on his/her own standard invoice. The invoice must include information detailing the cost breakdown for each measure as established by the Agency.

Payment will be based on prices submitted during the bidding process as cost-reimbursement, dependent on the material or service being purchased. No mileage, telephone, space and utility costs, automobile, insurance or staff expenses incurred during work on units, preparation for work on units, response to complaints, or services as a resource person shall be reimbursed under this contract.

IV. SPECIAL CONDITIONS

- A. AGENCY reserves the right to assign work as seen fit in the best interest of the Weatherization Program. The Agency will make no guarantees of work or production and will issue work on an as needed basis. The Agency will further reserve the right to terminate the working relationship with a contractor for reasons including, but not limited to, failure to provide proof of insurances and licenses, failure to perform work in a timely manner, and failure to perform work in the quality expected by the AGENCY.
- B. No work shall begin until the AGENCY issues a written Preliminary Award Notice Order to the CONTRACTOR. The Preliminary Award Notice will identify the property(ies) to be weatherized and will include a work order which gives a general description of work to be performed. The Preliminary Award Notice will be incorporated as part of this agreement.
- C. All work shall be completed in a professional manner acceptable to the AGENCY. All weatherization work must be completed in compliance with the Standard Work Specifications (SWS), JTA's, Community Services Policy Manual (CSPM), and Michigan Field Guide. All materials must be installed in accordance with the procedures outlined in the applicable documents referenced above.
- C. It will be the responsibility of the AGENCY to identify the work that will be performed on each house; it will be the responsibility of the CONTRACTOR to perform and /or re-check all measurements on windows and doors prior to ordering.
- D. All work is to be completed within thirty (30) days of the date of the Preliminary Award Notice. At the option of the AGENCY, this contract may be canceled if the CONTRACTOR fails to complete the work within thirty (30) days. Extensions of time for completion of work may be permitted provided that written requests for extensions detailing the reasons therefore are received and accepted by the AGENCY prior to the expiration of the initial thirty (30) day period.

- E. Jobs will be bid, awarded, and contracted on a per-job basis or by bid bundle. Each job consists of measures identified by a certified auditor through a complete State of Michigan (SOM) approved weatherization audit. Bids are based on unit price lists provided to AGENCY by each contractor when they apply for the Roster. The contractor may adjust bids on a quarterly basis.

- F. Bids are compared by price. Generally, the job/bundle will go to the lowest bidder. However, the AGENCY may apply non-price criteria to determine whether the lowest bidder is eligible to receive that job or bundle at the time. If not, the job is awarded to the next-lowest bidder, and so on until all eligibility criteria are met. The AGENCY may use a rotation process of contractors but shall eliminate the most recently used contractor from the next bidding process for the next job. A Contractor that has been awarded the most recent job shall not be considered for the next job being awarded.
 - 1. Work capacity: if the lowest bidder already has five (5) or more jobs currently in progress, the AGENCY may award the job to the next lowest bidder on the roster.
 - 2. Financial capacity: The AGENCY will not issue a contractor additional work beyond its financial capacity, until some outstanding work is completed, inspected and paid. If the lowest bidder has \$50,000 or more in outstanding work the AGENCY may award the job to the next lowest bidder on the roster.
 - 3. When a contractor is preliminarily awarded a job, he/she has the right to refuse the work. However, the AGENCY assumes that the reason for refusal is that the contractor does not have the capacity to complete the work within the required timeframe.
 - 4. If a contractor refuses one job, the AGENCY may assume that the contractor does not have the capacity and may choose not to offer the next job to that contractor

- G. If a job does not pass post inspection, the contractor will be required to fix, repair, clean, or otherwise finish assigned work before payment to contractor for the job shall occur and new work issued. All Contractors are required to meet minimum standards as set by OTTAWA COUNTY COMMUNITY ACTION AGENCY in regard to quality of materials purchased in order to weatherize a unit for OTTAWA COUNTY COMMUNITY ACTION AGENCY. OTTAWA COUNTY COMMUNITY ACTION AGENCY will utilize a Contractor Evaluation process that will track post inspection deficiencies of Weatherization Contractors.
 - 1. Inspection passage rate: The AGENCY may award jobs based on rate of passed inspections. The AGENCY will track each contractor's rate of passing final inspections of jobs completed over the preceding 3 month period.
 - 2. If Contractor's rate of passage falls below 90% for jobs completed for the preceding 3-month period, the Agency may award jobs to the next lowest bidder on the roster.

- H. The CONTRACTOR shall:

1. Arrange a mutually convenient time with clients for evaluation and installation of all work to be performed, and Contractor shall adhere to said schedule.
2. Use only materials that meet standards established for such material in Standard Work Specifications (SWS) <https://sws.v/>(Exhibit A), as defined in Appendix A of 10 CFR 440 or as approved by DOE on a case by case basis.

CONTRACTOR shall guarantee that all work shall be free from any defect in materials, manufacture, design or installation of any material provided and/or installed pursuant to this Agreement for said period from the date said materials are provided or are installed, whichever is later. Contractor shall remedy such defects promptly upon notice by the client or AGENCY, without charge. In the event of Contractor's failure to remedy such defects promptly, AGENCY may withhold payment to CONTRACTOR for any other weatherization work performed by CONTRACTOR pursuant to this Agreement. AGENCY shall be entitled to return to CONTRACTOR without payment, all materials of a quality inferior to that agreed to by AGENCY and CONTRACTOR.
5. Permit the AGENCY or its designee to examine and inspect the premises where the Weatherization work is being, or has been, performed.
6. Repair all surfaces and work damaged by the CONTRACTOR resulting from work under this Contract at no additional cost to the AGENCY. Any repairs or corrective actions necessary shall be completed within five (5) days of notification.
7. Procure, at his/her own expense, all necessary licensing and permits required by law to perform the work released to him/her under this Contract, and to arrange on CONTRACTOR'S own time and expense any other miscellaneous charges that might be necessary to perform the work called for. The Contractor will notify the AGENCY immediately in writing of any new or additional owner or employee criminal felony convictions, criminal misdemeanor convictions, and/or pending felony charges.
- H. Additional Requirements of Suppliers and Installers of Insulation: In addition to other responsibilities of Contractor set forth herein, if Contractor is supplying or installing insulation pursuant to this Agreement, it shall have the following additional responsibilities.
1. Contractor shall be responsible for measuring the attic area; including knee walls and slopes where needed. Contractor shall cut access space and insulate all access ways to install cellulose and/or fiberglass to specified density. The attic shall be ventilated in conformance with all applicable federal, state and local statutes, ordinances, codes and regulations.
 2. Upon completion of the installation of insulation, Contractor shall promptly complete and display in a location as directed by the AGENCY a *Certificate of Insulation*, completed and signed by the Contractor. The *Certificate of Insulation* form shall be displayed by stapling it as directed or by other means in which the form will be, and can be, expected to remain easily visible. A copy of said *Certificate of Insulation* is attached hereto as Exhibit B.
- I. The CONTRACTOR agrees that all work will be performed himself or by his employees or his subcontractors, if any may be used. Minimum material and installation standards and specifications are identified within the DHHS-approved field guide and all work performed must conform to these standards.
- J. The CONTRACTOR shall, with respect to the AGENCY, be considered an independent contractor and, as such, shall be solely responsible for the performance, general direction, supervision and efficient business administration of the work and contractor's employees.
- K. Should any dispute arise in respect to the true construction or meaning on drawings of the specifications, or should any dispute arise in respect to the true value of the extra work or of the work omitted, or of improper workmanship, or of any losses sustained by the Owner or the AGENCY, and if the manner of its estimation is not herein otherwise provided for the same shall be determined as follows: The OCCAA Program Manager shall hear the dispute and recommend terms for settlement. If

the terms of the recommended settlement are not satisfactory to both AGENCY and CONTRACTOR, then the dispute shall go for settlement to an arbitration panel. The arbitration panel shall be composed of three persons: one representative appointed by the OCCAA Program Manager, one representative appointed by the CONTRACTOR, and a third appointed by the first two representatives. The decision of the arbitration panel shall be final.

If a service provider's contract has been suspended, terminated or is not renewed, or if the contract contained an option to renew, or if an administrative action has been taken that limits or imposes requirements on the contractor, the contractor shall have a right to an appeal under the Complaint/Appeals Policy attached to this contract (Exhibit E).

L. Training

The CONTRACTOR and his employees shall be familiar with the DHHS-approved Technical Weatherization Policies and shall participate in training as required by the AGENCY and/or DHHS. Along with the invoice the contractor submits other documentation as required, ie: certificate of insulation, etc.

- C. No payment shall be made until after final inspection and approval of the work by the AGENCY.
