

ONLINE RESOURCES FOR AQUATIC INVADERS INFORMATION

compiled by Dr. Dan O'Keefe

Michigan Sea Grant, 10/23/08

Great Lakes Aquatic Nonindigenous Species Information System (GLANSIS)

National Oceanic and Atmospheric Administration (NOAA)

<http://www.glerl.noaa.gov/res/Programs/ncrais/glansis.html>

- Searchable Great Lakes database
- Fact sheets include info on identification, biology, means of introduction, and status/impacts of introduced populations
- Introduced range map and list of all collection locations

Non-Indigenous Aquatic Species (NAS)

United States Geological Survey (USGS)

<http://nas.er.usgs.gov/>

- National database includes data used for GLANSIS
- Find fact sheets, distribution for exotics that haven't made it to Great Lakes
- Sign up for e-mail alerts for new records in your watershed/county/state
- Report new occurrences after positive identification is verified

Zebra Mussel Infestation of Michigan's Inland Lakes

Michigan Sea Grant

<http://www.miseagrant.umich.edu/ais/lakes.html>

- Alphabetized list of Michigan inland lakes monitored for zebra mussels
- Includes records of lakes where monitoring did NOT find mussels
- Also see: <http://www.miseagrant.umich.edu/ais/hydrilla.html> for Hydrilla Hunt citizen monitoring program
