Did you know?

Bridge Card holders in Michigan can receive a **free** annual motor vehicle permit.

To receive a coupon code, inquire inside the DHHS office or call 616-394-7200 and press "0" to speak with an operator. The Ottawa County Parks fee waiver program is limited to one permit per household.

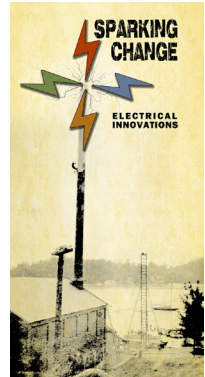

Pump House Museum **FREE**

The Pump House Museum & Learning Center in Holland will be open from June 1 through Labor Day!

The "Sparking Change" exhibit explores innovations in communication, transportation, recreation, and mechanization, which sparked a transformation in many aspects of the American way of life. Visitors will be challenged to send and receive telegraph messages in Morse code.

For museum hours and to learn more, visit historiccottawabeachsociety.org

News & Updates

Ottawa Sands Progress

Grand River Greenway

Exciting updates from Ottawa Sands! Anticipated to reopen in late summer 2024, the park is abuzz with new developments. Here are the improvements that are currently underway:

- Development of a day-use area with a parking lot and restroom
- Construction of a paved and accessible pathway around the inland lake
- Installation of updated trail signage
- Completion of the Idema Explorers Camp (IEC)
- Restoration of the inland lake shoreline and establishment of interdunal wetlands. Learn more about the restoration work at gl.audubon.org/news

We are excited to welcome you back to Ottawa Sands later this summer and appreciate your patience during this time. In the meantime, we recommend exploring North Ottawa Dunes, which connects to PJ Hoffmaster, or North Beach Park.

Keep an eye on our Facebook page for further updates! Sign up for email updates: bit.ly/ottawasandsnews

Reminder:

Ottawa Sands is currently **closed** to the public.

A paved 1.6 mile accessible path is being developed around the inland lake.

Scan the QR code to sign up for updates!

Construction commenced this spring on the day-use area parking lot and modern restroom.

The IEC will feature three treehouses, five yurts, and ten tent pads. Reservation availability will be announced once an opening date is confirmed.

Approximately six acres of interdunal wetlands will be created which will provide habitat for diverse wildlife and birds.

Ecological Enhancement Progress Continues along Grand River Coastal Corridor

Grand River Greenway

Current work to create interdunal wetlands at Ottawa Sands grows not only out of the Ottawa Sands Master Plan but also the 2021 Grand River Coastal Corridor (GRCC) Assessment. To continue to implement the recommendations of the GRCC Assessment and to support the Renew Harbor Island process, the OCPRC secured \$275,000 in grant funding through the National Fish and Wildlife Foundation Coastal Resilience Program. This funding will support the next phase of ecological planning and analysis at Harbor Island and Ottawa Sands.

This summer, OCPRC anticipates kicking-off this project which will include natural features assessments and preliminary design for feasible ecological enhancements at Ottawa Sands and Harbor Island.

Under Construction: Idema Explorers Trail - Stearns Bayou Connector

Grand River Greenway

Construction on the latest segment of the Idema Explorers Trail, which will finalize the western third of the trail, began this spring. The project involves adding a new pathway lane on the bridge over Stearns Bayou and two "bump-outs." The bridge extension will not only improve safety along this route but also provide better access for fishing and observing wildlife at Stearns Bayou. This project will complete the 24-mile long Grand Crossings loop around the Grand River between the US 31 and M-231 Grand River bridges.

Funding Agreement Approved for Bass River Trail Segment

Grand River Greenway

The Ottawa County Board of Commissioners recently approved an agreement to provide \$715,000 in funding from the Michigan Department of Natural Resources (MDNR) for the completion of the Bass River Segment of the Idema Explorers Trail. The Bass River Segment will connect over 7.4 miles and 1,995 acres of land, including a large stretch of the 1,665-acre Bass River State Recreation Area. This section would mark the longest continuous section of the Idema Explorers Trail. Additional funding is anticipated to be received from the Ottawa County Parks Foundation's Grand River Greenway Fund and other grants.

Kirk Park Updates & Renovations

Lake Michigan Coastal Greenway

Dog Beach Hours

Exciting news for all dog lovers! This summer, dogs are being welcomed back to the south beach area of Kirk Park to play off-leash during all park hours. The south stairs were reconstructed in late 2023 and access has been restored at the southern entry point. Let the beach adventures begin!

Renovations

A Michigan Natural Resources Trust Fund grant spurred exciting renovations at Kirk Park. Pop into Kirk Park on June 27 from 4-6 pm for an open house style event to celebrate the completed renovations. Check out the new playground, go on a scavenger hunt, and enjoy a popsicle!

Learn more at news.miottawa.org/kirkparkupdates

Off-leash Beach Hours

May 1 - September 30: Dogs are allowed off-leash on the south beach area during all hours of park operation. Dogs are not allowed on the north end of the beach.

October 1 - April 30: Dogs are allowed on Kirk Park north and south beach off-leash.

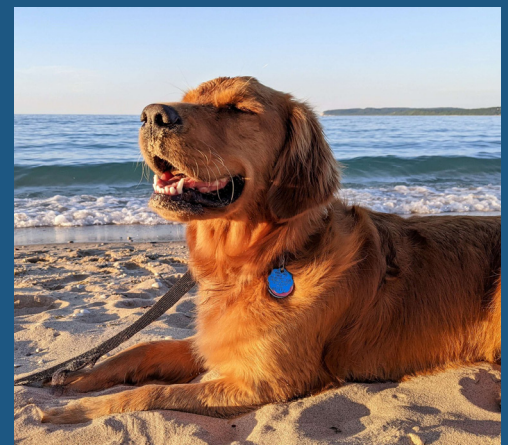

Dogs must be leashed on trails at all times.

A new playground has been replaced and relocated.

Restroom renovations include an addition of changing rooms and a new roof.

Tick & Mosquito Surveillance

The Department of Public Health will be conducting tick and mosquito surveillance through September in county parks. This research involves tick drags, where a tick cloth is dragged along the trail edge, and placing 24-hour mosquito traps at various sites. Identified tick and mosquito pools will be tested for Lyme disease and West Nile virus by the state. These results, along with data from other counties, will be used by the state to produce arbovirus summaries available at michigan.gov/emergingdiseases

If you notice this activity taking place in a park, please allow space for the surveillance to be carried out. For those interested in delving deeper into tick research, learn more during the upcoming Tick Talk event detailed on page six.

Help Keep Oak Trees Healthy

Oak wilt is a fungal disease that can kill oak trees, particularly red oak species, within a month of showing symptoms. The fungus is carried by small beetles that feed on sap from fresh tree wounds resulting from storm damage, pruning cuts, or other injuries. The infection can also spread through root connections between similar tree species or through the movement of infected logs and firewood.

How can you help? The MDNR is urging homeowners not to prune any oak trees during the high-risk period from April 15 to July 15. It is also important to not move infected logs or firewood during the high-risk period. If you suspect oak wilt, call the DNR or the district forester. If you are at a County Park, contact us at ocparks@miottawa.org

Friends of Ottawa County Parks

Friends members are passionate about our Parks and assisting individuals in exploring the wide range of opportunities they offer! Throughout this summer, they will be attending events in different communities to discuss everything from hiking trails and programs to invasive species and volunteer opportunities. Drop by their table to discover more about Parks! Check out some of the locations where you can find them this summer:

- June 13 - BPW Safety Fair - Holland
- June 15 - Juneteenth - Holland
- July 13 - Macatawa Water Festival - Holland
- September 7 - Sportsmen for Youth - Muskegon

Become a Beach Buddy!

Help keep our beaches clean this summer by becoming a Beach Buddy! Booths at Tunnel Park, Kirk Park, and North Beach Park will be outfitted with buckets for visitors to participate in the Beach Buddy program. To participate, request a Beach Buddy bucket and pick up any trash you can find on the beach. It's that easy! This program is offered in partnership with the Lakeshore Clean Up Coalition.

Connecting with Nature Series

Join the Ottawa County Parks Foundation (OCPF) for their Connecting with Nature series, where they will showcase various activities enjoyed by supporters of our Ottawa County Parks.

During this series, OCPF will be highlighting nature-based activities and encouraging you to explore new recreational opportunities. From popular activities like mountain biking, hiking, skiing, swimming, and fishing to less traditional ones like forest bathing, artistic endeavors, and volunteering – there is something for everyone.

Regardless of the activity, the common thread is the opportunity to immerse oneself in nature, which has been scientifically linked to numerous benefits such as improved attention and reduced stress and anxiety levels.

Find the series in the Ottawa County Parks Foundation's monthly e-newsletter. Scan the QR code to sign up!

Volunteer Spotlight: White Pines

We are celebrating our 12th year collaborating with White Pines Intermediate School for a week of volunteering. This spring, 450 White Pines students came together to collect 116 55-gallon bags of garlic mustard. This resulted in the removal of around 5,800 lbs of this invasive plant from the ecosystem. White Pines students alone have boosted our annual volunteer hours by nearly 1,000 hours! Their dedication and effort are greatly appreciated.

We have a variety of different volunteer activities for all ages! Learn more and become a volunteer: miottawa.org/volunteer

Explore with your Local Libraries

We are partnering with local libraries to provide several opportunities to get outside this summer! StoryWalks will be posted along a path for you and your family to read together. Stories are self-guided and available during park hours.

You can also pick up a scavenger hunt for some family fun through various Ottawa County Parks. We are hoping to expand to more libraries in the near future.

Scavenger Hunts

Swing by Herrick District Library, Georgetown Township Public Library, or Howard Miller Public Library to pick up a sensory-based scavenger hunt. Afterward, visit the Nature Center at Hemlock Crossing County Park to tell us about your adventures and pick up a prize!
