STATE OF MICHIGAN
COUNTY OF OTTAWA

IN RE: FOXWOOD NO. 2 DRAIN
BOARD OF DETERMINATION

Proceedings commenced at 10:45 a.m., on Thursday,
August 26, 2021, at the Holland Charter Township Fire
Department, Station #1, Holland, Michigan, held before
Marjorie A. Covey, CSR-2616, RPR, Certified Shorthand
Reporter and Notary Public.

APPEARANCES:

- Mr. Joe Bush, Ottawa County Water Resources Commissioner
- Mr. Josiah Timmermans, Chief Deputy to Water Resources Comm.
- Ms. Sara Hirst, Secretary

- Mr. Rich VanderKlok, Board Chairman
- Mr. Ken Souter, Board Secretary
- Mr. Todd Wolters, Board Member

- Mr. Lucas Timmer, Engineer, Prein & Newhof
- Mr. Ken Bosma, Engineer, Prein & Newhof

- Mr. Doug Kuiper, Holland Charter Township Finance Director

- Mr. Jerry Olman, Ottawa County Road Commission

Holland, Michigan
August 26, 2021 - 10:45 a.m.

PROCEEDINGS

WATER RESOURCES COMM. JOE BUSH: Well good morning, everyone. I'm Joe Bush, the Ottawa County Water Resources Commissioner.

I appreciate you taking the time this morning to kind of figure out what you're doing being invited to the firehouse for a Board of Determination. Again, being the Drain Commissioner and Water Resources Commissioner, this is kind of one of the job duties that we get to do is hold a Board of Determination, which is a public hearing, which is because we've been working with Holland Township on orphan drains.

And orphan drains, they're in all of the townships, and I have the whole county, so all 17 townships, six cities and a village. There is a lot of orphan drains that are around. And what an orphan means is nobody has jurisdiction over it, not the township, neither does the road commission, neither does the county.

So this was developed prior to having it under my jurisdiction. And so what they do nowadays is have a petition. And we have to notify everybody within the drain district or watershed. Everyone lives in a watershed or drain district, you can call it whichever you want, but

1 everybody's water goes somewhere. So if you got a mailing,
2 typically that's why because your water runs somewhere that
3 we're talking about, and this is the Foxwood No. 2 Drain.

4 So we've been doing so many of these orphans and
5 there is so many of them over the years with all the
6 development, we're trying to catch up and get these under
7 somebody's jurisdiction.

8 Well to do that, we need a petition. And we've
9 been getting those petitions quite regularly from Holland
10 Township. I can either be petitioned from the people or the
11 township through Drain Code, and this is all through state
12 law. And this is just all part of the process, the legal
13 process, to notify people, let them know they're in the
14 district, let them know we're having a public hearing.

15 That way people can tell us if there is issues in
16 this particular watershed or drain district that we should
17 know about. The only way we usually find out is an angry
18 person in a flooding situation, and then we hate when we have
19 to say, it's an orphan, nobody owns that drain. Nobody owns
20 the infrastructure. They call the road commission, they say,
21 call the county, talk to the township.

22 And we all look at each other and go, you know
23 what, it's kind of an orphan system, you know.

24 So Holland Township has been taking it and their
25 board approved, hey, let's start petitioning Joe, the Water

1 Resources Commissioner to hold Boards of Determinations to
2 establish these orphan drains.

3 So in the process, I have to appoint a three-panel
4 board, and this three-panel board has no affiliation with the
5 Holland Township board, the planning commission. They don't
6 own any properties in this set area that we're talking about
7 today. So they don't have rental properties or a home there.
8 Or they don't have flooding issues there because they don't
9 live there.

10 I want to make that clear, they don't have
11 jurisdiction in this particular drain district. Their job
12 totally today is to say, yes, this should be under Joe's
13 jurisdiction for the future maintenance of this.

14 Currently we don't know of any issues that's out
15 there. We don't have a project. They're not voting on a
16 project. The cost is getting picked up today through Holland
17 Township. This is all part of establishing orphan drains.

18 So they want to do it, they said we're going to
19 pick up the cost, there is no cost to the public or this area
20 to do today's meeting.

21 Again Holland Township has been very proactive in
22 just trying to get all these orphan drains, and we probably,
23 I bet we're working on 60 to 70 of these we've done in the
24 last eight years. This is my third term being elected to
25 this position, so this is just one of the many jobs that I

1 have jurisdiction over is getting petitions and holding
2 Boards of Determinations.

3 Again, I appoint this board. Holland Township has
4 no affiliation with these three gentlemen. Neither does any
5 of the committees or boards that Holland Township has, or
6 subcommittees. These are all just strictly appointed through
7 me through Drain Code.

8 So I'll go ahead and do some other introductions
9 and then we'll get into the business of giving the three
10 gentlemen the oath.

11 We have Lucas Timmer and Ken Bosma, they're from
12 Prein & Newhof. They do a lot of these orphan drains. They
13 kind of do a preliminary look-over of what's out there,
14 what's going on.

15 Currently we don't have any issues that's known to
16 us before the meeting. So, again, public hearings, we
17 usually find out there could be issues we don't know about,
18 which is another reason why we hold these.

19 The other one is these meetings are all court
20 recorded. We have Margie with us today, she's done a lot of
21 these for me over the years. And this is not required by
22 law, but I do this because we do post the minutes on the
23 website later. We're very transparent. It's word for word,
24 its not somebody's handwriting and did they interpret what
25 they said. This is word for word as I'm talking.

1 We will have public comment time later. Make sure
2 you speak your name and address and speak loudly so she can
3 hear it, and your comment, if you have issues or not. So
4 again this is not required by law, but I do it so you can
5 actually go back on the website later and read it.

6 Then we have Jerry Olman, he's from the road
7 commission. And he is usually in favor of all these because
8 there is infrastructure in the road, and the water goes
9 somewhere, but the infrastructure in the road does take on
10 private and public waters, and water goes somewhere. And
11 usually the road commission is a good partner to work with in
12 trying to resolve these issues down the road. But if it's
13 not under our jurisdiction, it's kind of hard to fix problems
14 we don't know about or we don't have control over.

15 So again I appreciate your time listening to
16 today's meeting and how it goes. So be sure to speak up
17 because this is how we determine the need, if it's necessary
18 or not based on public comment.

19 So again, these three gentlemen have been doing
20 these meetings for quite a few years for me. They've been
21 involved in local government. A lot of them are either
22 current supervisors of townships or been on township boards.
23 And one of them has actually worked for the road commission
24 for 38 years.

25 I'll start with him first, I'll work from right to

1 left. Ken Souter has worked for the road commission, he's
2 retired now, but 38 years as an engineer for the road
3 commission.

4 Then we have Mr. Rich VanderKlok. He is kind of
5 semi-retired but he was on the Georgetown Township board for
6 many, many years. He understands Drain Code, drainage,
7 infrastructure. And his purpose today is not for a project,
8 but do we see this necessary or not to be under Joe Bush's
9 kind of department moving forward.

10 And then we have Todd Wolters who is the current
11 supervisor at Olive Township. And he's also involved in many
12 other boards, but he's been doing this for me for quite a few
13 years as well.

14 I appoint people who understand, number one, their
15 job today is do they see a necessity or not based on
16 testimony or the township's comments or road commission's
17 comments. And to say, you know, it's not a cost today, there
18 is not a project, and their job isn't to decide that. It's
19 just, is it necessary or not. That's why we're here.

20 So I'll give these three gentlemen the oath and
21 they will run the meeting from there on out.

22 Gentlemen, please raise your right hand.

23 Do you each solemnly swear that you will faithfully
24 perform and discharge the duties imposed upon you as required
25 by law as members of the Board of Determination appointed by

1 the Ottawa County Water Resources Commissioner to determine
2 the necessity to locate, establish and construct the proposed
3 Foxwood No. 2 Drain located in Holland Charter Township in
4 said county, gentlemen?

5 BOARD MEMBER TODD WOLTERS: I do.

6 BOARD MEMBER RICH VANDER KLOK: I do.

7 BOARD MEMBER KEN SOUTER: I do.

8 WATER RESOURCES COMM. JOE BUSH: Thank you.

9 BOARD MEMBER KEN SOUTER: I'd like to make a motion
10 that Rich serve as chairman.

11 BOARD MEMBER TODD WOLTERS: Support.

12 BOARD MEMBER RICH VANDER KLOK: Moved and supported
13 that Rich serve as chairman.

14 Those in favor, say aye.

15 BOARD MEMBER TODD WOLTERS: Aye.

16 BOARD MEMBER RICH VANDER KLOK: Aye.

17 BOARD MEMBER KEN SOUTER: Aye.

18 BOARD CHAIR RICH VANDER KLOK: That is carried.

19 Then I make the motion that Ken Souter serve as
20 secretary.

21 BOARD MEMBER TODD WOLTERS: Support.

22 BOARD CHAIR RICH VANDER KLOK: And it's supported.

23 All those in favor, say aye.

24 BOARD MEMBER TODD WOLTERS: Aye.

25 BOARD CHAIR RICH VANDER KLOK: Aye.

1 BOARD MEMBER KEN SOUTER: Aye.

2 BOARD CHAIR RICH VANDER KLOK: That is carried.

3 We've already talked about the role and function of
4 the board as Joe had mentioned it to you, and the procedural
5 history. And so I'm going to ask Lucas if he'd give us the
6 engineering presentation.

7 ENGINEER LUCAS TIMMER: Thank you, Rich.

8 My name is Lucas Timmer. I am an engineer with
9 Prein & Newhof, and we were the engineering firm that was
10 hired to do some of the preliminary engineering work that's
11 required for the Foxwood No. 2 Drain.

12 So as Joe mentioned, the Foxwood No. 2 Drain is an
13 orphan drain. This is an existing storm water drain system
14 that is without an authorized local and county governmental
15 jurisdiction, and it lacks the administrative, procedural and
16 funding mechanisms to address current or future needs for
17 maintenance and improvements.

18 So essentially this system right now is considered
19 a private or an orphan system. So if there are ever any
20 issues, nobody owns it. And this process today is to get it
21 setup so that it becomes part of the public system.

22 Holland Township filed a petition to establish this
23 drainage district on May 20, 2021. And we are here today, as
24 Joe mentioned, for a Board of Determination, which is part of
25 that Drain Code process when you look to establish a county

1 drain.

2 So some of the preliminary engineering work that we
3 started with was that we reviewed utility record drawings and
4 plat maps.

5 So we reviewed the storm water -- the storm water
6 record drawings, sanitary sewer and water main, just to get a
7 feel for your neighborhood and how it was setup for high
8 points and low points.

9 We also reviewed plat maps. So we reviewed
10 Richland Estates which was established in 1998, Foxwood No.
11 1, which was established in 1991, and Brookwood Sub and
12 Brookwood Sub No. 1, which were both in 1963.

13 We then used some of that data from the record
14 drawings and the plat maps to delineate a drainage district.
15 So a drainage district is essentially a watershed.

16 If you're in the drainage district, it's considered
17 that you contribute runoff to the storm sewer infrastructure.
18 If you're outside of the drainage district, then it's
19 considered that you do not contribute runoff to the proposed
20 county drain. And we're able to delineate this drainage
21 district using county GIS contour data which is one-foot
22 contour data which gives us an idea on what the grades are in
23 the area. We're also able to use aerials.

24 We then visited the site to locate drain
25 infrastructure and confirm drainage patterns.

1 So this next slide shows the proposed drainage
2 district. The proposed drainage district is here in red. As
3 you can see, this proposed drainage district also takes up a
4 sub district which is an existing county drain. So if anyone
5 in this audience lives in Richland Estates, Richland Estates
6 is already an established county drain. So this was an
7 established county drain in 1998, it was part of the plat
8 process. So all drain infrastructure in Richland Estates was
9 established as a county drain.

10 Interestingly enough, Foxwood No. 2 was established
11 in 1991, so seven years before Richland Estates. Richland
12 Estates, this green infrastructure here, this green line
13 which shows the storm sewer infrastructure, connects to
14 Foxwood No. 1 -- I'm sorry, Foxwood No. 2. Their
15 infrastructure was never established as a county drain.

16 So if anything ever happened to Foxwood No. 2 and
17 the pipe were to get blocked off, it would impact everyone in
18 Richland Estates, which then, if this was not a county drain,
19 there would be no governmental jurisdiction attached to the
20 Foxwood No. 2 infrastructure.

21 So that's why we're here today is to get this blue
22 infrastructure here established as county drain.

23 So the next slide just shows an aerial of the
24 drainage district, which once again is here in red.

25 Richland Estates, their drainage district here is

1 shown in green.

2 So following this presentation, we'll have a time
3 for public testimony. As Joe and the board mentioned, please
4 mention your name and address so that it can be recorded by
5 Margie.

6 And then the board will then determine after
7 hearing from you guys if there is any necessity, if it is
8 necessary to establish this as a county drain.

9 So if it's deemed necessary to establish all that
10 blue infrastructure that I showed on the previous map as
11 county drain, then it will become part of the county drain
12 system and there will be governmental jurisdiction
13 responsible for it.

14 If deemed not necessary by the board, then no
15 further action will occur. The system then will remain as an
16 orphan or a private system.

17 So this slide here has a lot of language and I want
18 to jump down to number two here, because this is an
19 important, some important information for you guys.

20 If this drain is deemed necessary by the board, and
21 we find out today from public testimony that there is no
22 drainage issues, no issues are going on, then what happens at
23 the end of this is Holland Township covers all the costs to
24 pay for this to become an established county drain, and
25 that's exactly what Joe mentioned.

1 However, if the drain is deemed necessary by the
2 board, and in public testimony we find out that there are
3 some significant flooding issues or other issues that need to
4 be addressed, then a project would incur.

5 And part of this project setup is that OCWRC would
6 use P & N to review feasible projects to improve drainage.
7 We'll then go through the design process for drainage
8 maintenance and improvements.

9 So we determine what project make sense. Joe
10 doesn't want us to do a Cadillac project when it just
11 requires a Yugo fix. Joe is an elected official, he wants to
12 make sure that the project makes sense for his electorate.

13 We then select a project. We do a project design
14 and survey. If easements are required to be -- if easements
15 need to be acquired, we would acquire the easements.

16 We would then go under project bid and
17 construction. And then there would be this process called a
18 Day of Review of Apportionment. So how that works is
19 assessments would then be sent out, and everyone would be
20 notified of this Day of Review of Apportionment which is an
21 eight-hour time period that the Drain Code requires people to
22 come in to talk about their assessment and apportionment.

23 And those assessments then would be made out to the
24 Ottawa County, Ottawa County Road Commission, Holland
25 Township, and the property owners that are within the

1 drainage district.

2 If there were ever any future problems, let's say
3 there is no problems now but ten years from now a storm sewer
4 collapses that requires maintenance and repair. So how that
5 repair would occur is there would need to be a petition
6 from Holland Township or from the property owners per Drain
7 Code.

8 If the project is a small fix, let's say there is a
9 small sinkhole that needs to be repaired, that would be less
10 than 5,000 per mile, per Drain Code, that allows the county,
11 per Drain Code, just to take care of the project, without the
12 petition and Board of Determination process.

13 So assessments for all future projects will be made
14 to Ottawa County, Ottawa County Road Commission, Holland
15 Township and property owners.

16 Thank you.

17 BOARD CHAIR RICH VANDER KLOK: Okay, thank you,
18 Lucas.

19 Any questions or comments, Ken, or Todd?

20 BOARD SECRETARY KEN SOUTER: Yeah, Lucas, can
21 you -- I'm a little dense here. Can you tell me what
22 direction all of this flows and where it flows to?

23 ENGINEER LUCAS TIMMER: From our review and from
24 contour data, we were able to determine that Richland Estates
25 here flows into a storm sewer system that connects into the

1 proposed Foxwood No. 2.

2 These large properties here drain to the north by,
3 and they'll end up getting to this catch basin system that's
4 installed in the backyards of the residents of Foxwood No. 2.

5 BOARD SECRETARY KEN SOUTER: And then where does it
6 to go once it leaves this particular area?

7 ENGINEER LUCAS TIMMER: Good question. So it flows
8 in this blue infrastructure here in the storm sewer and ends
9 up flowing north toward the Brower Drain.

10 BOARD SECRETARY KEN SOUTER: To the Brower Drain.

11 ENGINEER LUCAS TIMMER: Yep.

12 BOARD SECRETARY KEN SOUTER: Thank you.

13 BOARD CHAIR RICH VANDER KLOK: Todd?

14 BOARD MEMBER TODD WOLTERS: No. No questions.

15 BOARD CHAIR RICH VANDER KLOK: Okay. Before we do
16 public comment, I don't believe we had a motion to limit
17 public comment to three minutes.

18 And so I'll make that motion.

19 BOARD MEMBER TODD WOLTERS: Support.

20 BOARD CHAIR RICH VANDER KLOK: Moved and supported
21 to limit public comment to three minutes.

22 Those in favor, say aye.

23 BOARD MEMBER TODD WOLTERS: Aye.

24 BOARD CHAIR RICH VANDER KLOK: Aye.

25 BOARD SECRETARY KEN SOUTER: Aye.

1 BOARD CHAIR RICH VANDER KLOK: That is carried.

2 Now we come to that portion of the meeting where
3 you as residents have opportunity to speak.

4 But before that, Jerry from the road commission, do
5 you have any comments that you'd like to make?

6 ROAD COMMISSION JERRY OLMAN: This is Jerry Olman
7 with the Ottawa County Road Commission.

8 I'm not aware of any issues with the road drainage
9 on Holiday Drive.

10 For the road commission, we are in favor of
11 establishing these orphan systems and bringing them into the
12 Water Resources Commissioner's control.

13 BOARD CHAIR RICH VANDER KLOK: Okay. Thank you,
14 Jerry.

15 And then from Holland Township --

16 HOLLAND TOWNSHIP FIN. DIRECTOR DOUG KUIPERS: Yes,
17 Doug Kuiper with Holland Township.

18 So the township is systematically seeking to bring
19 all these orphan drains under the jurisdiction of the Water
20 Resources Commissioner's office and that is the reason for
21 the petition before you today.

22 BOARD CHAIR RICH VANDER KLOK: Okay, thank you.

23 And so, public comment, the gentleman in the back,
24 if you would state your name and your address please.

25 MR. SCOTT NYHUIS: Scott Nyhuis, 10125 Holiday

1 Drive.

2 I guess my only question right now is so is the
3 blue proposed or the blue already exist?

4 ENGINEER LUCAS TIMMER: That's a great question.

5 So the blue, that blue already exists. All that
6 storm sewer infrastructure exists, but it's being proposed to
7 go from a private or an orphan system to a county drain
8 system.

9 MR. SCOTT NYHUIS: Okay.

10 ENGINEER LUCAS TIMMER: Good question.

11 BOARD CHAIR RICH VANDER KLOK: Okay. Yes, ma'am.
12 Your name and address, please?

13 MS. CAROL SOSNOSKI: Carol Sosnoski, I'm at 10325
14 Hannah Drive, so I'm in Richland Estates.

15 I've only lived there since October but I haven't
16 noticed anything that would, you know, seem like the drain
17 system was in any way failing.

18 And it just seems reasonable to me though that we
19 would get underneath the jurisdiction in case there were to
20 be some kind of issue. I don't know about the neighboring
21 communities, but it seems reasonable to me that we would go
22 forward with coming under the jurisdiction of the Water
23 Resources Commissioner.

24 BOARD CHAIR RICH VANDER KLOK: Okay, thank you.

25 This gentlemen? Name and address, please?

1 MR. BOB MULDER: My name is Bob Mulder. And I live
2 at 10079 Holiday Drive. I've lived there since 1993.

3 And I know of no water issues there. I know I was
4 concerned before I moved in, but the way that system was
5 setup, there is no water issues in the basement. I don't
6 have any issues either.

7 So I'm for this motion, that you do that, because
8 if something would happen to that main blue line going back
9 there, it would affect all of us.

10 So anyhow, that's my comment. I'm glad to see this
11 happen, and I'm for it.

12 The county drain, I could have flooding from the
13 back side too, but that, with that culvert on 100th Street,
14 so that's good. So I'd like to say, keep that as it is.

15 BOARD SECRETARY KEN SOUTER: Good, thank you. Any
16 comments from -- I think we've gotten everyone.

17 I would make a motion then to close the public
18 comment time.

19 Is that supported?

20 BOARD MEMBER TODD WOLTERS: Supported.

21 BOARD CHAIR RICH VANDER KLOK: Moved and supported
22 that we close the public comment time.

23 All those in favor, say aye.

24 BOARD MEMBER TODD WOLTERS: Aye.

25 BOARD CHAIR RICH VANDER KLOK: Aye.

1 BOARD SECRETARY KEN SOUTER: Aye.

2 BOARD CHAIR RICH VANDER KLOK: And now, Ken or
3 Todd, do you have any comments?

4 BOARD SECRETARY KEN SOUTER: Well I'll go first.
5 Basically it seems like it makes total sense, and most of
6 these have always made senses that people need a place for --
7 to call if they got a problem.

8 And working for the road commission, I know I've
9 given people the run around on occasion when I was there
10 because of the fact that we didn't even know who had
11 jurisdiction. So if not under the drain commissioner, he
12 would send them to Holland Township, or the township, and
13 they just kind of ran around not knowing what to do. And
14 that's not really fair.

15 So to get these under one entity, just makes so
16 much sense to me that I'm totally in favor of them.

17 BOARD CHAIR RICH VANDER KLOK: Okay. Todd?

18 BOARD MEMBER TODD WOLTERS: Yeah, I'm in favor of
19 this proposal as well. I think it will protect the folks in
20 Richland a little bit more than where they are at right now
21 so we can have a little quicker response if something does go
22 wrong.

23 BOARD CHAIR RICH VANDER KLOK: Good. I would agree
24 with that. And hearing also the public comment, I would make
25 the motion that the location, establishment and construction

1 of the Foxwood No. 2 Drain, as petitioned on May 21, 2021, is
2 necessary and conducive to the public health, convenience and
3 welfare.

4 I'll make that motion, is that supported?

5 BOARD MEMBER TODD WOLTERS: Support.

6 BOARD CHAIR RICH VANDER KLOK: Moved and supported.

7 All those in favor, say aye.

8 BOARD MEMBER TODD WOLTERS: Aye.

9 BOARD CHAIR RICH VANDER KLOK: Aye.

10 BOARD SECRETARY KEN SOUTER: Aye.

11 BOARD CHAIR RICH VANDER KLOK: And that is carried.

12 Then I want to ask Joe to just make a comment about
13 the appeals process, if you would.

14 WATER RESOURCES COMM. JOE BUSH: So I have to say
15 this at every meeting, at every Board of Determination that
16 if somebody wanted to appeal today's decision, you can appeal
17 it through Circuit Court, and you have ten days from today if
18 somebody would more than likely want to appeal it, you can by
19 law.

20 Again, I appreciate everybody's time here this
21 morning. And some people ask, I put it on the record that,
22 well, does this still happen today? Well from about 2007 to
23 today, and this is my third term I'm working on that I'm
24 involved in now, so we do review all the developments. And
25 anything that's been since under my jurisdiction since 2013,

1 it's been under my jurisdiction as far as brought into the
2 drain system when it gets reviewed during the process of
3 being approved as a plat through the township. We review
4 every development technically in Ottawa County for all the
5 townships, most of the cities. A couple cities we don't,
6 they review their own.

7 But one way or another when it comes under a county
8 drain system, that process is done now, so we don't have to
9 keep doing these forever. We're just trying to play catch-up
10 from the '70s, '80s, '90s, even back in the '40s and '50s.

11 So we're trying to catch up. It's not about
12 governmental control, it's just about customer service and
13 providing something we can help with down the road. Because
14 infrastructure will fail at some point because it's only --
15 it only lasts as long as it can until it needs repaired.

16 So again, we appreciate your time, thank you.

17 BOARD CHAIR RICH VANDER KLOK: Thank you, Joe.

18 We are adjourned.

19 MS. CAROL SOSNOSKI: I just have a question. So do
20 I understand correctly that you voted in favor of taking it
21 under the jurisdiction?

22 BOARD CHAIR RICH VANDER KLOK: That's correct.

23 MS. CAROL SOSNOSKI: And then one other question.
24 You mentioned where people could call if they did have some
25 kind of emergency or situation. Where would they call for

1 that?

2 WATER RESOURCES COMM. JOE BUSH: The Ottawa County
3 Water Resources Commissioner office.

4 MS. CAROL SOSNOSKI: Okay.

5 WATER RESOURCES COMM. JOE BUSH: My department, or
6 9-1-1. They know how to get ahold of me. If it's an
7 emergency, make sure they call me. Because they're either
8 going to call the road commission or they're going to call me
9 or both. And we'll both show up.

10 (Board of Determination - Foxwood No. 2 Drain -
11 adjourned at 11:10 a.m.)
