What is a Drainage District?

A drainage district is the land area that benefits from the drain. The drainage district makes up the watershed that contributes water to the drain. Each property and municipality within the drainage district pays for maintenance and improvement of the drain.

What is a Board of Determination?

A Board of Determination is a 3-member panel of disinterested property owners. The role of the Board of Determination is to receive evidence and hear testimony of interested persons and determine whether the petitioned activities are necessary and conducive to the public health, convenience, or welfare.

Why did I receive a notice?

A petition was filed with the Ottawa County Water Resources Commissioner requesting the location, establishment, and construction of the proposed drain. All property owners with lands in the drainage district were sent a copy of the notice.

Does the Board of Determination decide what work gets done?

No, the board of determination decides necessity, but does not determine the scope or cost of the project. Further, the board of determination does not determine how much property owners and municipalities will be assessed.

Does the decision of the Board of Determination have to be unanimous?

No, only a majority vote of the board of determination is required. Only the members of the board of determination vote. The attendees at the meeting do not vote, but instead provide testimony to the board members to assist in their determination.

What is my assessment amount?

Estimated assessment amounts are not yet determined. If the Board of Determination finds the project necessary, the Water Resources Commissioner will hold a public meeting to review apportionments after a project scope has been determined. Notices for the public hearing on assessments will be sent out at a later date.

Do I have to attend the Board of Determination?
