TO: EAGLE RIDGE DRAIN DISTRICT PROPERTY OWNERS
FROM: JOE BUSH, OTTAWA COUNTY WATER RESOURCES COMMISSIONER
DATE: JULY 12, 2018
RE: EAGLE RIDGE DRAIN CONSTRUCTION PROJECT

The Eagle Drain Project is scheduled to begin construction the week of July 16. We are informing the property owners in the drainage district of the anticipated project schedule and providing you with contact information should you have questions about its progress during construction. Know that we are committed to minimizing any inconvenience from this construction as much as possible, however portions of the construction have some significant work taking place that may be a temporary disruption. We are convinced that when the work is complete this will be a significant improvement to the storm water infrastructure in the area and helping to reduce flooding of properties while providing water quality benefits.

Schippers Excavating, Inc. of West Olive, MI has been selected as the project Contractor, having been the lowest responsible bidder. They are likely to begin mobilization and construction the week of July 16. The expected duration of the project is 8 weeks.

Note that these dates are only estimates from the Contractor and may be affected by the weather or other unexpected issues. Future updates regarding the schedule will be provided on the Ottawa County website at <https://www.miottawa.org/Departments/Drain/eagleridge.htm>

Eng., Inc. is the Engineer for the Eagle Ridge Drain project. For your convenience, we have provided the following contact information for those overseeing the work, as follows:

Eng., Inc. Office.....(616) 743-7070
Jacob Rickner, Construction Inspector(616) 322-5710
Ryan McEnhill, PE, Project Manager.....(616) 743-3020
OCWRC Office.....(616) 994-4530

Please feel free to reach out to any of us if you have any questions or concerns during construction. It is an honor and a privilege to serve as your Water Resources Commissioner in Ottawa County.
