|----|--|
| 2  | June 28, 2022 - 10:00 a.m.                                   |
| 3  | PROCEEDINGS  |
| 4  | WATER RESOURCES COMM. JOE BUSH: Well, good                   |
| 5  | afternoon, everyone. My name is Joe Bush, the Ottawa County  |
| 6  | Water Resources Commissioner, also known as the Drain        |
| 7  | Commissioner. Title change in 2012, but it's still the same  |
| 8  | office as the Drain Commissioner. So they just call us the   |
| 9  | Water Resources Commissioner now.                            |
| 10 | So welcome. I appreciate you taking the time this            |
| 11 | afternoon to kind of go over and kind of learn and listen on |
| 12 | the kind of the issues over here in the subdivision that we  |
| 13 | call Flag Stick Drain district.                              |
| 14 | There were some potential issues that I heard                |
| 15 | about, or issues going on with flooding and some water       |
| 16 | drainage issues, so one thing that we try to do is we talked |
| 17 | it over with the township, and it's there's two ways to go   |
| 18 | about it, either a petition from the people on the issues or |
| 19 | a petition from the township.                                |
| 20 | In this particular situation, the township was               |
| 21 | willing to petition to hold a Board of Determination, and    |
| 22 | that's why we're here today. So, by Drain Code, by state     |
| 23 | law, when we receive a petition, whether from no matter      |
| 24 | who it's from, even the road commission if they want to      |

petition a project, I have to hold a Board of Determination.

Some people say, well, what does that mean? 1 2 today, it's kind of a public hearing, and it's public 3 testimony, and it's court recorded word for word. I've been doing this since 2013 when I got elected, and it is to 4 protect everybody involved, whether it's me, the road 5 commission, the township, the board who I appoint today, or 6 7 the public giving testimony, who said what, what did they say, what did Joe say, what did the Board decide, and why. 8 A lot of years later, down the road, people go back 9 10 and go, well, what did I say? And a lot of times they don't remember. But if it's court recorded, we can always use it, 11 whether it's in court, and hopefully we never have to do 12 that, but it's always a good reminder of what was said and 13 14 what the issues are so we can go back and look at it. When I took this job, it was a lot of hearsay, 15 well, a lot of things happened in the past, we don't know, 16 17 it's not in the file, a lot of hand shakes, so I figure we'll just court record it, which, again, is not required by Drain 18 Code, but I do it just so it's word for word. 19 I can't imagine somebody taking minutes or doing it 20 21 all by hand and getting it right, so I want to make sure we're accurate on the information that's getting provided, 22

all by hand and getting it right, so I want to make sure
we're accurate on the information that's getting provided,
whether it's public testimony or the Board making a decision
or the engineering report.

23

24

| 1  | we'll go ahead and petition you guys to hold a public         |
|----|---|
| 2  | hearing, the next step for me is to, again, get a three-panel |
| 3  | board. So these three gentlemen before you are your           |
| 4  | three-panel board. They have no jurisdiction in this          |
| 5  | property or the drain district that's in red on that map.     |
| 6  | That is the watershed. They have no properties within this.   |
| 7  | And they have no properties in Holland Township.              |
| 8  | These three gentlemen are not affiliated with the             |
| 9  | township board or anything to do with the township, period.   |
| 10 | These are all people who are living within Ottawa County but  |
| 11 | outside of this area.   |
| 12 | So, this is all per state law and per Drain Code              |
| 13 | that I do this. Their role today is, not for a project, not   |
| 14 | to come up with a cost, not to come up with a solution, even  |
| 15 | though they probably would like to.                           |
| 16 | We do have an engineer on this Board, retired                 |
| 17 | engineer after 38 years. But that being said, their job       |
| 18 | isn't for that today. Their job is to say, yeah, Joe, we see  |
| 19 | you to move forward with a project.                           |
| 20 | Now, again, I will repeat, there's no cost today,             |
| 21 | because this, again, they could turn it down. They could say  |
| 22 | yeah, we don't see a big enough issue. Or they could          |
| 23 | determine it necessary. So today is basically trying to hear  |
| 24 | public comment on the issues that we're kind of aware of.     |

Sometimes we get brought things to us that we're

not aware of, so that's why we hold these. We hear more about things that we didn't know about than we do in certain cases.

Again, this is the sixth one we've held today, so it's been an interesting day. But, to say the least, these three gentlemen have been doing these for a number of years. They understand, Number 1, how to run a meeting. Number 2, they understand Drain Code, which is what I follow. That's — that's the law that I go by. And they also understand township stuff, township business, how it goes, public testimony. They're very good at it. They do a very good job at it. And we appreciate people taking the time of their day to be on this Board.

And, again, when they do ask for public comment, you know, it's court recorded, so state your name, address, and be sure to tell us what the issues are, what your concerns are. We don't know what we don't know. So we're always happy to hear them.

And then, again, there's no project. People going in, what's this going to cost? Well, we have no idea. We don't even know what the solution is. Like I said, their job isn't to figure that out.

I was trying to think what else. Being that this is already a drain district, I know Prein & Newhof had been out there, kind of did some surveying for us probably a month

They took some shots in back yards. Maybe some of you 1 2 have seen them out there. They were taking some elevations 3 just to kind of get their head wrapped around the situation that we're hearing about there, and then just kind of having 4 a preliminary engineer, what I want to say, overview for 5 today's public hearing. 6 7 And then they can share those results in a PowerPoint that they're going to provide for us. But for 8 Prein & Newhof, we have Ken Bosma and Lucas Timmer. 9 And then we have Dawn Houghton who is our court 10 reporter. 11 And then Jerry Olman, this is Number 6, but Jerry 12 is from the road commission. He's been a big supporter and a 13 partner. Ottawa County Road Commission has been a supporter 14 and a partner of ours on all these projects because 15 somewhere, somehow, there's road right-of-way, and roads 16 17 involved, and public safety involved. So Jerry's been at all of these. 18 And then we have two of my staff, my Chief Deputy 19 Josiah, and Marie Snyder is my secretary. 20 21 And then I'll go ahead and introduce these three gentlemen. Once I give them the oath, they will run the 22 meeting. It's their hearing. They can ask me any questions 23 at any time. But, again, be sure to ask them and talk to 24

them when you're giving public testimony.

| 1  | So after I give them the oath I'll do                         |
|----|---|
| 2  | introductions first, just so you know who you're talking to.  |
| 3  | To my right to left, we have Ken Souter, 38 years at the road |
| 4  | commission in the engineering department. Ken lives now       |
| 5  | currently in Port Sheldon Township.                           |
| 6  | We have Rick VanderKlok from Georgetown Township,             |
| 7  | retired board member from there, from that township.          |
| 8  | Then we have Josh Westgate. Josh came from Wright             |
| 9  | Township. He is currently the deputy supervisor in Jamestown  |
| 10 | Township.   |
| 11 | But, again, all three of these gentlemen have been            |
| 12 | doing these Board of Determinations for for quite some        |
| 13 | years, so I appreciate your your time today.                  |
| 14 | If you would please rise, raise your right hand,              |
| 15 | and we'll get started.  |
| 16 | Do you each solemnly swear that you will faithfully           |
| 17 | perform and discharge the duties imposed upon you as required |
| 18 | by law as members of the Board of Determination, appointed by |
| 19 | the Ottawa County Water Resources Commissioner, to determine  |
| 20 | the maintenance, improvement, the extension of the Flag Stick |
| 21 | Drain, located in Holland Charter Township in said county?    |
| 22 | Do you each affirm that you are landowners and                |
| 23 | residents of Ottawa County, but do not own land or reside in  |
| 24 | Holland Charter Township; Gentlemen?                          |
| 25 | BOARD MEMBER KEN SOUTER: I do.                                |

| 1  | BOARD MEMBER JOSH WESTGATE: I do.                             |
|----|---|
| 2  | BOARD MEMBER RICH VANDER KLOK: I do.                          |
| 3  | WATER RESOURCES COMM. JOE BUSH: Thank you.                    |
| 4  | BOARD MEMBER RICH VANDER KLOK: Thank you, Joe.                |
| 5  | Our first order of business would be the election             |
| 6  | of a chairperson for the Board of Determination.              |
| 7  | BOARD MEMBER JOSH WESTGATE: I'll make the motion              |
| 8  | to appoint Rich VanderKlok as chairman of the Board of        |
| 9  | Determination.  |
| 10 | BOARD MEMBER KEN SOUTER: I'll second that motion.             |
| 11 | BOARD MEMBER RICH VANDER KLOK: Motion is made and             |
| 12 | supported that Rich VanderKlok be chair of the Board of       |
| 13 | Determination.  |
| 14 | All those in favor, say aye.                                  |
| 15 | BOARD MEMBER JOSH WESTGATE: Aye.                              |
| 16 | BOARD MEMBER RICH VANDER KLOK: Aye.                           |
| 17 | BOARD MEMBER KEN SOUTER: Aye.                                 |
| 18 | BOARD CHAIR RICH VANDER KLOK: Then we need to                 |
| 19 | elect a secretary, and I would move that Josh Westhouse (sic) |
| 20 | be elected as secretary.                                      |
| 21 | BOARD MEMBER KEN SOUTER: I'll second that motion.             |
| 22 | BOARD CHAIR RICH VANDER KLOK: All those in favor,             |
| 23 | say aye.  |
| 24 | BOARD MEMBER JOSH WESTGATE: Aye.                              |
| 25 | BOARD CHAIR RICH VANDER KLOK: Aye.                            |

| 1  | BOARD MEMBER KEN SOUTER: Aye.                               |
|----|---|
| 2  | BOARD CHAIR RICH VANDER KLOK: I think I said                |
| 3  | Westhouse. I think I meant Westgate.                        |
| 4  | BOARD SECRETARY JOSH WESTGATE: Aye.                         |
| 5  | BOARD CHAIR RICH VANDER KLOK: That was one of our           |
| 6  | drains we worked at, didn't we? Oh, shoot.                  |
| 7  | BOARD MEMBER KEN SOUTER: It's getting late.                 |
| 8  | BOARD CHAIR RICH VANDER KLOK: It is.                        |
| 9  | Then I would like to make a motion that public              |
| 10 | comment be limited to three minutes. And is that supported? |
| 11 | BOARD MEMBER KEN SOUTER: Second that.                       |
| 12 | BOARD CHAIR RICH VANDER KLOK: Moved and supported           |
| 13 | that public comment be limited to three minutes.            |
| 14 | All those in favor, say aye.                                |
| 15 | BOARD SECRETARY JOSH WESTGATE: Aye.                         |
| 16 | BOARD CHAIR RICH VANDER KLOK: Aye.                          |
| 17 | BOARD MEMBER KEN SOUTER: Aye.                               |
| 18 | BOARD CHAIR RICH VANDER KLOK: That's carried.               |
| 19 | And we've already heard from Joe, the role and              |
| 20 | function of the Board, the procedural history.              |
| 21 | And now I'd like to turn over to our engineer. Ken          |
| 22 | Bosma will make this presentation. Ken?                     |
| 23 | ENGINEER KEN BOSMA: Thank you.                              |
| 24 | Good afternoon. Ken Bosma, Prein & Newhof. Just             |
| 25 | here to give an overview on the Flag Stick Drain as we know |

1 it today.

So, the existing storm water system is an existing county drain that was established in what they call a 433 agreement. It's set up through the Drain Code. It allows the developer, once he's developed a development, to turn the county system over to the Water Resources Commission.

Molland Township filed for this petition. As Joe mentioned, there's different ways this can be done. Holland Township filed this petition back on May 19, 2022, for this. And then, again, as required by Michigan Drain Code, we have to have this Board of Determination to do anything to move forward.

What we have done is we've reviewed the available records that we have on file or that are in the Ottawa County Water Resources Commission's files, and take a look at what is around there.

A couple of things that have happened, as that is in part related to this Flag Stick Drain, is there's a storm sewer on 100th Avenue. It was built at the outlet of Hunter's Creek, and that was constructed in 2001. And then there is the existing Flag Stick Drain, basically developed and established in 2005.

From there, we also delineate the drainage district. I know Joe has alluded to it, and we'll show pictures, but this drainage district is what we consider the

watershed boundary of what enters into the system of both the 1 2 existing Flag Stick Drain and the storm sewer on 100th Avenue. And then we visit this site to make sure, you know, 3 what we're seeing in there is representative of what's on the 4 drawings in there. 5 So back in May of this year, we were called out 6 7 prior to that, and had an opportunity on May 26 to go out on-site. And we took some pictures here. And you'll see 8 what we have kind of identified as maybe some potential 9 issues in the area. 10 So you'll see the shot Number 1 is basically, I'm 11 sorry, shot Number 1, looking here, is looking towards the 12 east towards this house that is just in the southeast corner 13 of the Flag Stick development. 14 By the way, the yellow district here is the Flag 15 Stick development, which is the 433 district. So that is 16 17 looking to the east. What you can see there is there's some water being trapped in this back yard here. 18 And then the second picture down here is looking 19 south, really standing more kind of from the back, behind 20 21 this barn area here and kind of looking back. And, again, you can see that same water area which is identified in here. 22 And then Number 3, we'd be standing more on the 23 There's kind of a low area between these two 24 25 driveways. Currently, there is a culvert right under this

Then there's a culvert under here under this part 1 2 of the driveway and lawn area. What we're looking at, and 3 maybe this doesn't show real well, but there was some water that was trapped in here. That was back on May 26, again. 4 And then this last picture here, Number 4, this is 5 standing on 100th Avenue looking east. It's really hard to 6 7 get a good picture of it, but the drain and the swale in this area is kind of overgrown. This is actually sitting on the 8 Zeeland West School property. 9 And currently, this is not a county drain. There 10 is no easement applicable or anything in that regard. 11 The drainage for this, that we have up here to see, 12 is everything does appear to be going to the north towards 13 the swale, school, and 100th Avenue. 14 So here is, again, the overall district that we've 15 identified, basically looking at the county GIS system with 16 17 the one-foot contours. And what we understand from the drainage systems in there, they all come into the watershed 18 that potentially get here, and then this drainage system 19 outlets into Hunter's Creek, which then flows westerly this 20 21 way. Here, again, is the Flag Stick 433 district that 22 you can see is this yellow area here. So the pictures we 23 were looking at were kind of in this corner and in this part 24

of the swale here.

Again, this is a little bit more of a blow-up of 1 2 the Flag Stick area. So, again, there's culverts here, a 3 culvert here. These green areas are easements that have been designed as part of the development. 4 I believe there is some drainage going right 5 through this area, and then they do have a detention pond. 6 7 However, the drainage on the east side here does not get to the detention pond. It goes more toward these swales and 8 out. Both of these do outlet into the same 100th Avenue, and 9 then eventually up to Hunter's Creek. 10 So today, we're going to hear from public 11 testimony, those who wish to present any kind of new 12 information in there. The Board then will determine if this 13 14 is necessary to make it, as a public health, welfare, convenience, as a project. 15 If it is deemed necessary, then the Water Resources 16 17 Commission will review the project and then start to commence the project. If they deem the -- the Board deems it's not 18 necessary, then nothing more happens at this point. 19 If it is deemed necessary by the Board, and then it 20 21 goes to the Water Resources Commission, the next steps we'll be looking at is project design. That's looked at closely 22 23 with Joe's office as to what kind of project we would include. 24 And then upon completion, the project is designed.

| 1  | Then it will go out for public bids. And after the public     |
|----|---|
| 2  | bids are received, those costs will all be compiled together. |
| 3  | And then the costs of that will be set up for a Day of Review |
| 4  | where the property owners can come and see the apportionments |
| 5  | that are set up for that. And then after that, construction   |
| 6  | will commence.  |
| 7  | The cost of these projects, they're dependent on              |
| 8  | the type of project. If there is one, it will then be         |
| 9  | assessed out to Holland Township, the road commission, the    |
| 10 | county, and then the parcels that are within the district.    |
| 11 | That's the end of my presentation.                            |
| 12 | BOARD CHAIR RICH VANDER KLOK: Okay. Thank you,                |
| 13 | Ken.  |
| 14 | For the Board members, Ken or Josh, do you have any           |
| 15 | questions for Ken at this point?                              |
| 16 | BOARD MEMBER KEN SOUTER: So the storm sewer shown             |
| 17 | on this paper in the 104th Avenue is existing?                |
| 18 | ENGINEER KEN BOSMA: 100th Avenue.                             |
| 19 | BOARD MEMBER KEN SOUTER: 100th Avenue is existing?            |
| 20 | ENGINEER KEN BOSMA: Correct.                                  |
| 21 | BOARD MEMBER KEN SOUTER: And did you look at the              |
| 22 | outlets to it and this sort of thing? Are they functioning    |
| 23 | properly?   |
| 24 | ENGINEER KEN BOSMA: Yeah, I don't see any issues              |
| 25 | on 100th Avenue.  |

| 1  | BOARD MEMBER KEN SOUTER: On 100th Avenue, okay.               |
|----|---|
| 2  | And that was all built with Flag Stick?                       |
| 3  | ENGINEER KEN BOSMA: No, it was separate. The one              |
| 4  | on 100th Avenue was built in 2001. The Flag Stick             |
| 5  | development was 2005. So it is the outlet for Flag Stick.     |
| 6  | It was not part of any type of county drain either, so that's |
| 7  | why it's also being included, because this is the only way    |
| 8  | the positive drain potentially can occur as as the has        |
| 9  | really two outlets from this development here. There's a      |
| 10 | detention pond that has an outlet further to the south, and   |
| 11 | then the east line kind of goes to the north and over to the  |
| 12 | west to 100th Avenue.   |
| 13 | BOARD MEMBER KEN SOUTER: So that was put in there             |
| 14 | by a township road project?                                   |
| 15 | ENGINEER KEN BOSMA: Yes.                                      |
| 16 | BOARD MEMBER KEN SOUTER: So it was never part of a            |
| 17 | county drain system?  |
| 18 | ENGINEER KEN BOSMA: Correct.                                  |
| 19 | BOARD MEMBER KEN SOUTER: It was part of the road              |
| 20 | project?  |
| 21 | ENGINEER KEN BOSMA: Correct.                                  |
| 22 | BOARD CHAIR RICH VANDER KLOK: Good.                           |
| 23 | Josh, any?  |
| 24 | BOARD SECRETARY JOSH WESTGATE: Not at this time.              |
| 25 | BOARD CHAIR RICH VANDER KLOK: Okay. Good.                     |

Then, Jerry, from Ottawa County Road Commission, do 1 2 you have any comment that you'd like to make? 3 ROAD COMMISSION JERRY OLMAN: Yeah, with -- we'd be in favor of expanding the district to include 100th Avenue 4 storm sewer, this county drain, the reason being is we had 5 the -- the drainage system in the public right-of-way, and --6 7 but then we have private development draining into that system, so it only makes sense to have it all continue as 8 county drain out to the outlet. 9 BOARD CHAIR RICH VANDER KLOK: Okay. Good. Thank 10 you, Jerry. 11 Then we'll open it up for public comment. And if 12 you'd like to make a comment, then if you would state your 13 name and your address, and then also identify whether you 14 15 live within or have lands in the drainage district. And so we'll start right here, if you would like to 16 17 make a comment, your name and address? MARIANNE HUNDERMAN: Marianne Hunderman, 3284 100th 18 I do have a home in the district. And I guess 19 talking to the former owner of the house that he showed 20 21 pictures of off Riley, they had stated before they sold they had no water issues until Riley was resurfaced and the 22 23 drainage was like higher now than Riley Street, like the culverts were now higher. So I guess I just am curious if 24 25 that was looked at at all as part of this study.

| 1  | BOARD CHAIR RICH VANDER KLOK: Ken, do you want to            |
|----|--|
| 2  | answer that because you did the preliminary work on this?    |
| 3  | ENGINEER KEN BOSMA: We looked at that to even see            |
| 4  | if there was possibly an outlet there, and that elevation of |
| 5  | that storm sewer in Riley Street is higher than what it is   |
| 6  | going to the north, yes, so there's not that access there.   |
| 7  | MARIANNE HUNDERMAN: Okay. Because that was his               |
| 8  | comment, that's when he had water issues, after Riley was    |
| 9  | redone.  |
| 10 | ENGINEER KEN BOSMA: And again, just for your sake,           |
| 11 | this line here is based on also Ottawa County GIS contours   |
| 12 | where they kind of break as well.                            |
| 13 | BOARD CHAIR RICH VANDER KLOK: Okay. Does that                |
| 14 | help?  |
| 15 | MARIANNE HUNDERMAN: Yes.                                     |
| 16 | BOARD CHAIR RICH VANDER KLOK: Okay. The lady next            |
| 17 | to you, if you would like to make a comment, your name and   |
| 18 | address please.  |
| 19 | TRACIE PIERSMA: Sure. My name is Tracie Piersma,             |
| 20 | and I do live in the district. I'm at 3254.                  |
| 21 | And the drainage issue is actually in my back                |
| 22 | corner of my lot. And I don't know all of what was looked    |
| 23 | at, so I think before I comment, I'd like to hear maybe what |
| 24 | some of the solutions would be.                              |
| 25 | I don't really know that there is one. I know when           |

| 1   | we built, there was standing water back behind there.         |
|-----|---|
| 2   | There's like a little woods area where the barns are and the  |
| 3   | culverts are, and I know that that was always water before we |
| 4   | even built our house. So it isn't                             |
| 5   | ENGINEER KEN BOSMA: Right there?                              |
| 6   | TRACIE PIERSMA: Correct. Yep. And we did the                  |
| 7   | culverts, and the water's all supposed to drain. If it        |
| 8   | doesn't drain correctly, that's one issue. But there always   |
| 9   | was water back there. It's all clay, so the water was always  |
| 10  | there to begin with. It wasn't necessarily created by our     |
| 11  | building of houses there.                                     |
| 12  | BOARD CHAIR RICH VANDER KLOK: Sure.                           |
| 13  | TRACIE PIERSMA: But the people that live on the               |
| 14  | newer people on this road on Riley may not know that, but     |
| 15  | there was always water back there.                            |
| 16  | BOARD CHAIR RICH VANDER KLOK: In answer, or                   |
| 17  | comment to one of the things that you asked about, our job is |
| 18  | not really to provide solutions. Our job is really to         |
| 19  | determine whether or not we should go forward to put it into  |
| 20  | the county system   |
| 21  | TRACIE PIERSMA: Yep.  |
| 22  | BOARD CHAIR RICH VANDER KLOK: in order that                   |
| 23  | they can look at that, and then provide the solutions that    |
| 24  | they might find, depending on the engineering work that's     |
| 2 5 | done Is that helpful?   |

| 1  | TRACIE PIERSMA: Yeah. I mean, there is standing             |
|----|---|
| 2  | water back there. But, like I said, there always has been,  |
| 3  | so I don't really know what could or couldn't be done about |
| 4  | it.   |
| 5  | BOARD CHAIR RICH VANDER KLOK: Okay. Good. Thank             |
| 6  | you.  |
| 7  | The next lady?  |
| 8  | DEBRA MALEC: My name is Debra Malec. I also have            |
| 9  | a house. My address is 3292 100th Avenue. I actually own    |
| 10 | the property where that retention pond is. I actually don't |
| 11 | have a comment. I kind of had the same question as Tracie,  |
| 12 | so that was answered fairly well.                           |
| 13 | BOARD CHAIR RICH VANDER KLOK: Okay. Did you find            |
| 14 | that to be helpful for you?                                 |
| 15 | DEBRA MALEC: Yeah, I think so. My question was              |
| 16 | mostly also like what would some of the ideas be behind     |
| 17 | possibly for that.  |
| 18 | BOARD CHAIR RICH VANDER KLOK: Sure. And you're              |
| 19 | also probably Riley Street issue might be something you're  |
| 20 | thinking of, too?   |
| 21 | DEBRA MALEC: Yes.   |
| 22 | BOARD CHAIR RICH VANDER KLOK: Okay. All right.              |
| 23 | Thank you.  |
| 24 | The gentlemen in the back?                                  |
| 25 | SCOTT STEGGERDA: Yes. My name is Scott Steggerda,           |

and I own the property at 9925. That's the low house on the 1 2 block. My daughter owns the house. I own the lot next door. 3 We bought it from Randy Ruster who lived there for 30 years, so I got quite a bit of history what's going on 4 back there. I met with the road commission, gentleman here, 5 and some other folks, and we went out there on the rainiest 6 7 day of the year. We could see how flooded it was back there. So they -- they did some measurements. I think 8 they were the ones that called Prein & Newhof in, checking 9 things out. But there's standing water back there that has 10 nowhere to go. 11 And I -- my understanding was, when they put the 12 Flag Stick lots in there, there's a retention pond. All the 13 homes and the barns and everything are supposed to drain, the 14 driveways are supposed to drain down to 100th Street, and I 15 don't see where they do that. 16 17 There's drains, tiles coming off the roof from the gutters right to the back of my barn there, and the standing 18 water sits there and it has nowhere to go. So the -- when 19 they made the road wider on Riley, they got rid of the ditch 20 in front of our house, there's a couple -- actually, what are 21 they called? 22 23 ROAD COMMISSION JERRY OLMAN: The catch basin. SCOTT STEGGERDA: So there's really no catch basin 24 25 anywhere on my property anymore, so the water has nowhere to

go. All the water from the barns that were put up there are 1 2 going down. 3 And we were -- the understanding was it was all supposed to drain to 100th Street. But it doesn't. 4 there's a lot of drainage from those properties come on to 5 ours, so it makes our yard unusable most of the summer while 6 7 it's raining. Can't really mow the lawns it's so wet. wet today. 8 And we're just, you know, we had a lot of rain this 9 spring. I know you always have. You've got clay out there. 10 I'm used to being in sand. 11 We're hoping that you can get the water out of 12 there so we don't have these issues. So, you know, my 13 comment is there was standing water back there, it was a 14 15 field because it was lower back there, but we never had the problems like we have now. 16 17 BOARD CHAIR RICH VANDER KLOK: Sure. SCOTT STEGGERDA: And it's just, how do we get the 18 water out of there? If we can get the water to go where it's 19 supposed to on 100th, that would be what we'd like to see, 20 21 you know, makes our property better used. Because I don't feel that other people's property should drain on somebody 22 23 else's property, and I see that's what's happening. So if we could figure that out, that's all we're 24 I mean, you know, there's going to be water back 25

| 1  | there. I get it. It's a low spot. All the houses that were   |
|----|--|
| 2  | built up, they all brought in fill sand. You know, there's   |
| 3  | some, hardly the house to the east of us, you know, he       |
| 4  | raised his whole property up two feet, so the water's got    |
| 5  | nowhere to go there.   |
| 6  | There was a catch basin that it could have gone to.          |
| 7  | There's a natural swale. That's higher than what ours is, so |
| 8  | it has nowhere to go there. And, of course, the back         |
| 9  | property gets caught between, you know, the barns that were  |
| 10 | put up, and the houses, have nowhere to get out of there.    |
| 11 | So, hopefully, if this is truly where the line is            |
| 12 | going to be where those houses are, we get that draining out |
| 13 | of there. It has to go somewhere. Right now, it sits in my   |
| 14 | back yard.   |
| 15 | My barn was flooded all spring, you know, had                |
| 16 | standing water inside the barn, which it never had before    |
| 17 | those houses were there. Never came up that high. So I do    |
| 18 | appreciate if we can get the water out of there somehow.     |
| 19 | BOARD CHAIR RICH VANDER KLOK: Good. Thank you for            |
| 20 | those comments. Appreciate that.                             |
| 21 | BOARD MEMBER KEN SOUTER: I got a couple questions            |
| 22 | for the people.  |
| 23 | A lot of times you hear in clay areas that you're            |
| 24 | having problems with flooded basements, this type of thing.  |
| 25 | We're just dealing with standing water? Is that the main     |

| 1  | problem?  |
|----|---|
| 2  | SCOTT STEGGERDA: You're asking me?                            |
| 3  | BOARD MEMBER KEN SOUTER: Standing surface water?              |
| 4  | SCOTT STEGGERDA: Well, so I own a property that's             |
| 5  | a vacant lot. It has a barn on it. My daughter bought the     |
| 6  | other property, 9925, so she owns that.                       |
| 7  | There's a sump pump in the basement that runs                 |
| 8  | non-stop. There's always water. The guy I bought the house    |
| 9  | from put tile all the way around the house, so it's always    |
| 10 | draining in there.  |
| 11 | But there's a barn on that back property, a 30 by             |
| 12 | 40 pole barn, and that had standing water this spring. When   |
| 13 | everything is falling and everything else, it has nowhere to  |
| 14 | go, so it just creeps up to our back yard, gets to our house, |
| 15 | because it just can't go to the draining culverts, you know.  |
| 16 | And like I say, when they widened Riley, they got             |
| 17 | rid of the ditch, put the culverts on the ground, they        |
| 18 | bypassed our property. The one that's east of our property,   |
| 19 | that's the closest one to us. I guess there's one on my       |
| 20 | property, too, but it's so high, it doesn't get to that point |
| 21 | from the back yard there.                                     |
| 22 | BOARD CHAIR RICH VANDER KLOK: All right. Good.                |
| 23 | Thank you.  |
| 24 | If there are no other public comments, then I would           |
| 25 | move that public comment time be closed.                      |

| 1  | BOARD SECRETARY JOSH WESTGATE: Support.                       |
|----|---|
| 2  | BOARD CHAIR RICH VANDER KLOK: Moved and supported             |
| 3  | to close public comment time.                                 |
| 4  | All those in favor, say aye.                                  |
| 5  | BOARD SECRETARY JOSH WESTGATE: Aye.                           |
| 6  | BOARD CHAIR RICH VANDER KLOK: Aye.                            |
| 7  | BOARD MEMBER KEN SOUTER: Aye.                                 |
| 8  | BOARD CHAIR RICH VANDER KLOK: That's carried.                 |
| 9  | And now, Board members, Ken, Josh, if you have                |
| 10 | comments that you want to make based on the public comment    |
| 11 | that we heard?  |
| 12 | BOARD MEMBER KEN SOUTER: I guess I see a problem,             |
| 13 | and the people have a problem, so they can't do anything with |
| 14 | it through the Drain Commissioner unless this becomes a       |
| 15 | public under public domain.                                   |
| 16 | So, as far as I'm concerned, it's a good idea to              |
| 17 | get it under public domain, and they can take a look at it    |
| 18 | and see once if there's a solution to the problem.            |
| 19 | I'm a little surprised that we didn't have anybody            |
| 20 | from the school, since the school is being included in this   |
| 21 | entire area, but it looks like if everything drains to that   |
| 22 | drain, it should be included in the drainage district.        |
| 23 | So I'm in favor of getting this under jurisdiction            |
| 24 | so something can be looked at.                                |
| 25 | BOARD CHAIR RICH VANDER KLOK: Okay. Good. Thank               |

| 1  | you.  |
|----|---|
| 2  | Josh?   |
| 3  | BOARD SECRETARY JOSH WESTGATE: I'm going to agree             |
| 4  | with Ken on this. We have to bring this in the county         |
| 5  | drainage system to be able to fix, obviously, the issues in   |
| 6  | the area, so I'm in favor of this project going forward.      |
| 7  | BOARD CHAIR RICH VANDER KLOK: Okay. We, just so               |
| 8  | that you're aware, those of you in the public, your comments, |
| 9  | obviously, were recorded there, and the engineers also        |
| 10 | recorded them, so those are the issues that they'll be        |
| 11 | looking at trying to address when they do their engineering   |
| 12 | study.  |
| 13 | Our purpose only is to determine whether or not it            |
| 14 | should be brought under the auspices of the Ottawa County     |
| 15 | Water Resources Commission, and so that's our our task.       |
| 16 | And based on the comments that I heard and the                |
| 17 | comments from the Board members, I would make the motion that |
| 18 | the proposed Flag Stick Drain, as petitioned on May 19, 2022, |
| 19 | is necessary and conducive to the public health, convenience, |
| 20 | or welfare.   |
| 21 | BOARD MEMBER KEN SOUTER: I'll second that motion.             |
| 22 | BOARD CHAIR RICH VANDER KLOK: Motion is made and              |
| 23 | supported.  |
| 24 | All in favor, say aye.  |
| 25 | BOARD SECRETARY JOSH WESTGATE: Aye.                           |

| 1  | BOARD CHAIR RICH VANDER KLOK: Aye.                           |
|----|--|
| 2  | BOARD MEMBER KEN SOUTER: Aye.                                |
| 3  | BOARD CHAIR RICH VANDER KLOK: Opposed? That is               |
| 4  | carried.   |
| 5  | And, Ken, do you or, I mean, Joe, do you want to             |
| 6  | make a comment about   |
| 7  | WATER RESOURCES COMM. JOE BUSH: Well, I appreciate           |
| 8  | everybody taking the time to kind of learn about the process |
| 9  | and how this works. That way it's not a Joe decision. It's   |
| 10 | actually a Board of Determination decision, and they see it  |
| 11 | necessary.   |
| 12 | That being said, if anybody wanted to appeal                 |
| 13 | today's decision, you can do that through circuit court. You |
| 14 | have ten days from today to appeal it. Typically, nobody     |
| 15 | does, because they're in favor of, but if somebody wanted to |
| 16 | appeal it, again, circuit court's the way to do that.        |
| 17 | I appreciate everybody's time this afternoon, and            |
| 18 | we look forward to doing what we can do to fix the problem.  |
| 19 | BOARD CHAIR RICH VANDER KLOK: Okay. Thank you,               |
| 20 | Joe.   |
| 21 | I would declare the meeting adjourned. Thank you             |
| 22 | all for coming.  |
| 23 | (Board of Determination adjourned at 3:59 p.m.)              |
| 24 |  |
| 25 |  |
