Steaders Borough South Drain Board of Determination

Prein & Newhof

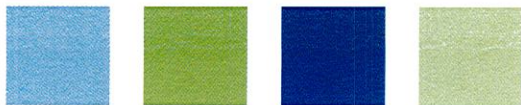

Steaders Borough South Drain

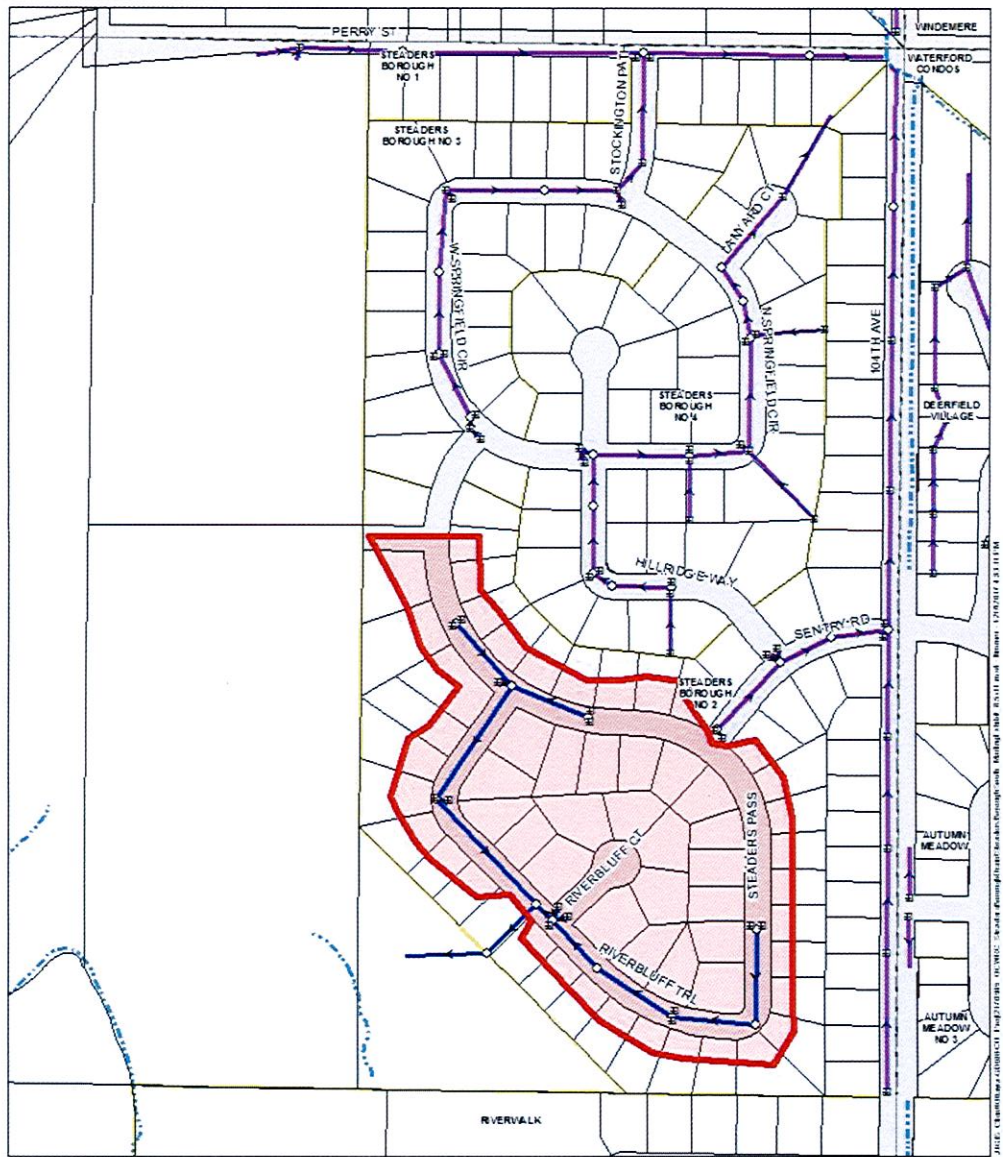

- The existing storm water drain system is an orphan system without authorized local and county governmental jurisdiction and administrative, procedural, and funding mechanisms to address current/future needs for maintenance and improvements.
- Petitioned by Holland Charter Township on November 2, 2017 under Chapter 4 of the Michigan Drain Code of 1956 to establish as a county drain.
- Michigan Drain Code requires a Board of Determination Meeting

Steaders Borough South Drain

- Next Steps
 - Public Testimony
 - Board to determine necessity of petition based on public health, welfare, and/or convenience after hearing testimony
 - If deemed necessary by the board, then the orphan system will become a county drain.
 - If issues are brought up about this drain during this meeting, a project may occur to fix these problems; otherwise, nothing else will be done at this time.
 - In the future, a petition is needed to maintain the county drain if the project costs more than \$5,000 per mile of drain (per Drain Code). Assessment will be made to Ottawa County, Ottawa County Road Commission, Holland Charter Township, and property owners.
