NOTICE OF DRAIN MAINTENANCE

November 11, 2023

This notice is to inform you that a maintenance contract has been approved for the **Welton & Barlow Drain** which runs through or near your property. The contractor will be starting work within the next six weeks. Contractor information including a map of the proposed drain cleanout area can be found on our website: http://www.miottawa.org/Departments/Drain/maintenance_projects.htm

The drain maintenance may include **sediment removal**. If you would like the spoils removed or placed in specific areas, it is your responsibility to make arrangements with the contractor and pay the associated costs directly. The contractor will restore all disturbed areas created as a result of the maintenance performed.

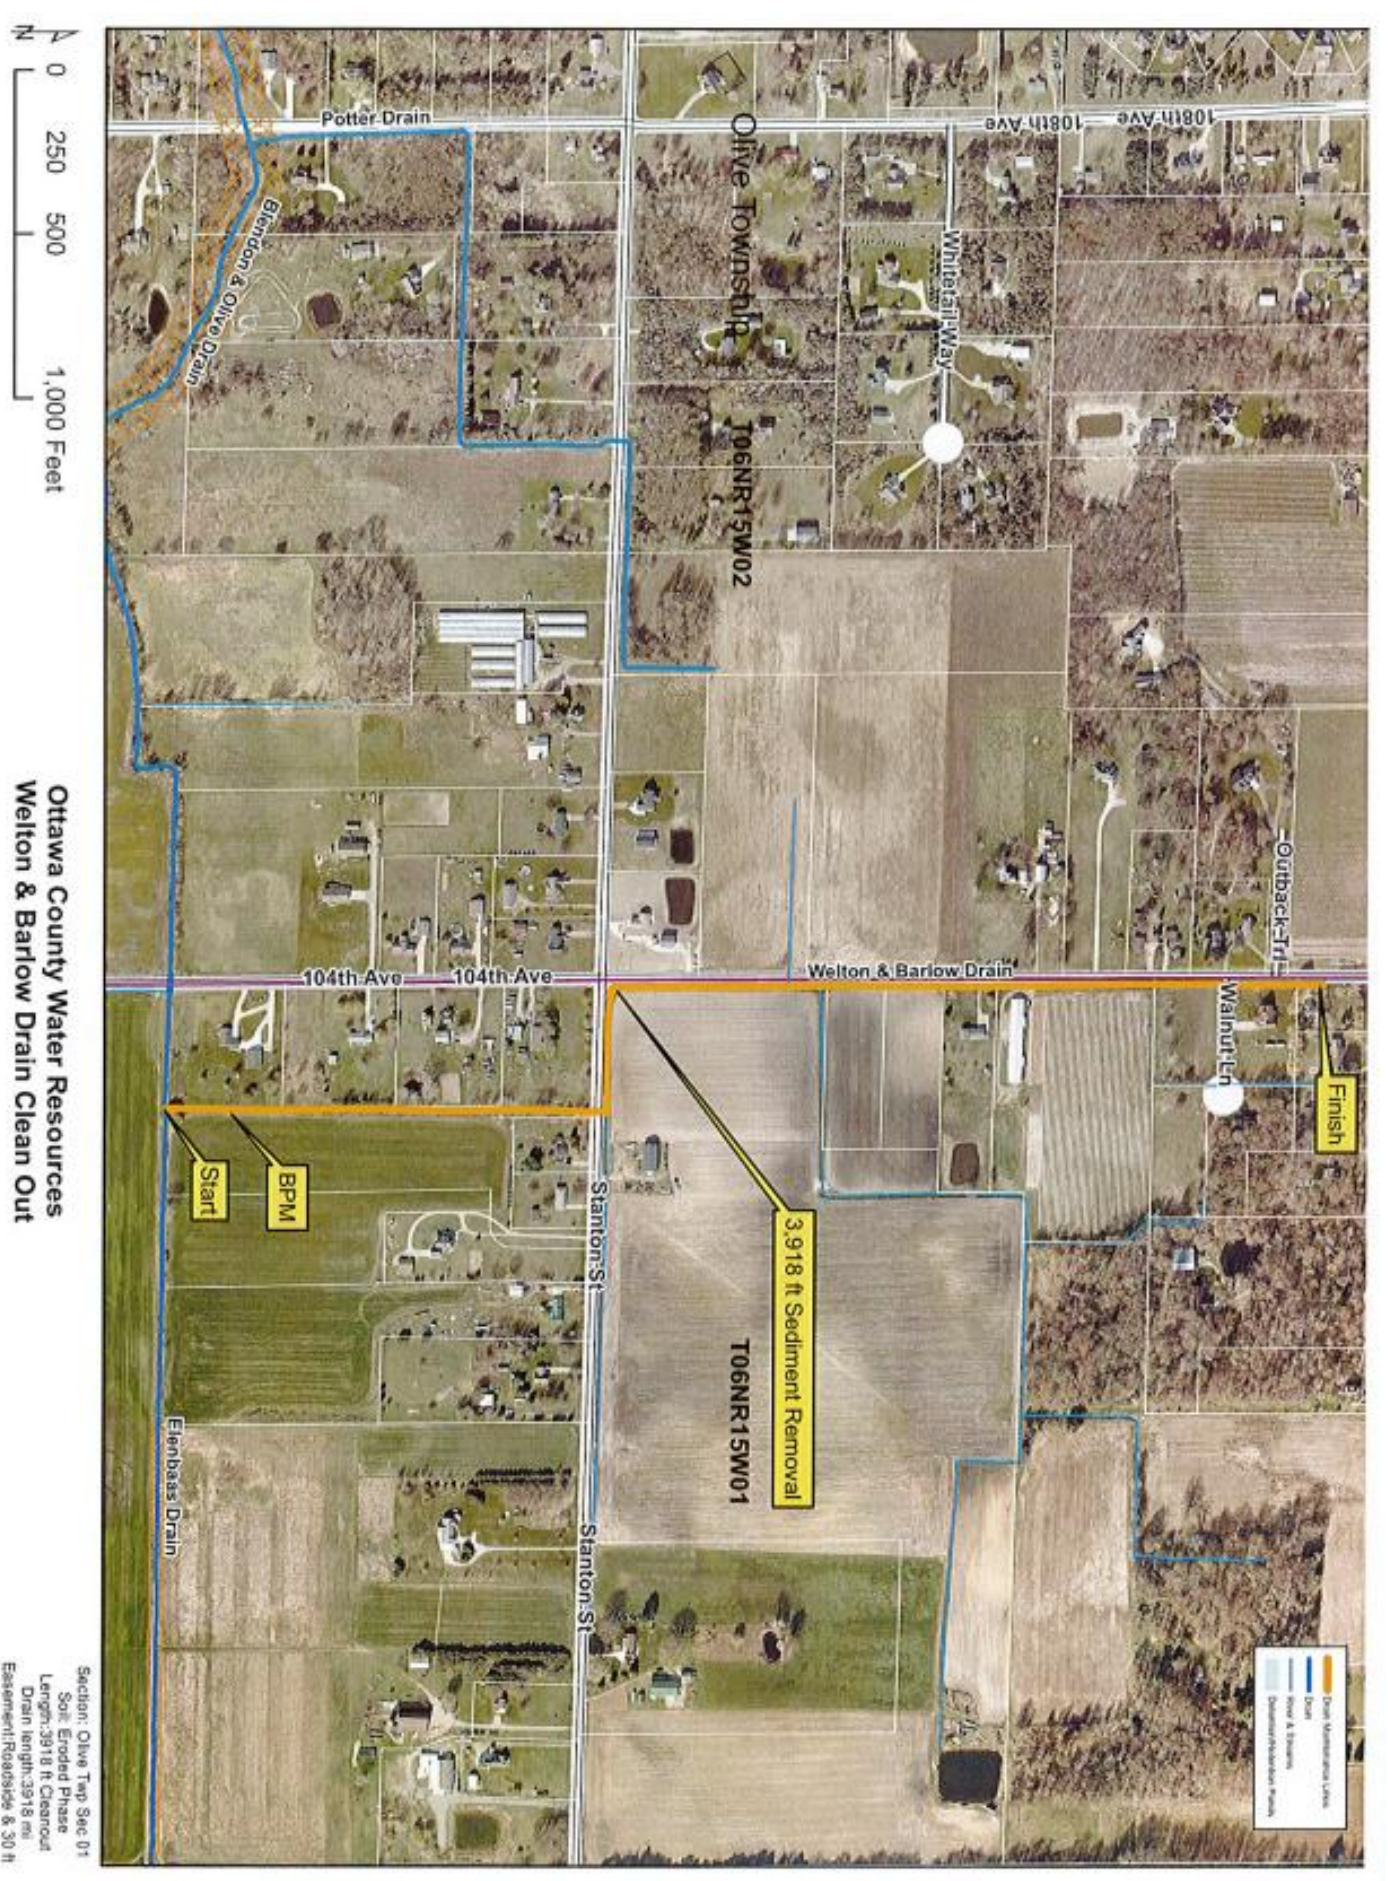

Please remove any fences, play sets or structures that are located within the drain easement as soon as possible. Also, make sure that any invisible dog fence, underground sprinkling, sump lines/tile outlet, property corner pins, etc. are marked. Care will be taken to avoid damage to anything within the drain easement; however, contractors will not be held responsible for something damaged that was not moved or marked.

Your cooperation is always appreciated in these matters. Should you have any questions, concerns, or input that you would like us to consider, feel free to contact us at 616-994-4530 or email waterresourcescommissioner@miottawa.org.

Thank You,

Emily Grasch
Drain Inspector
