Please provide any suggestions or other feedback as to how the hunt can be improved for next year. 25 ⓘ

Please provide any suggestions or other feedback as to how the hunt can be...

It's perfect Neely. Don't change a thing !!

If a food bank could be established, more does could be harvested.

It's good the way you have it setup

I liked having the opportunity to move, as there were 0 deer in my hunt area, next year may be different.

The hunt was very well organized and the staff supporting the hunt was fantastic. I liked that I was able to pick up an additional zone to hunt due to vacancy on the last day. My only suggestion to space out Hunts A and B to different weekends would probably be too disruptive to the other park users and bring a negative light on the hunt. My only thought here is it might lower the hunting pressure and increase doe harvest.

John Warner

Neely did a good job with the group texts, love the comrade of the hunters. Looking forward to next year

Hunt is perfect the way it is set up currently. would love to have an archery weekend as a successful hunter in the hunt

Please provide any suggestions or other feedback as to how the hunt can be...

For my first year, I thought everything was great! Thanks Nealy- Bryce

It was mentioned that the Zones might get added to OnX. This would greatly benefit all hunters to clear up any grey area of the zone boundaries.

Make hunters from the 1st day turn in additional tags to be given out again on day 2 of the hunt. I've hunted the 2nd day for many years and tags are always gone after I fill a tag on the 1st day. If you had hunters turn in the additional tags they received it would even the hunt so 2nd day hunters didn't have to use personal tags for additional deer.

I would look into an electronic way to distribute the extra management tags. So many of the extra tags were given out on Friday that there weren't any available for the B hunters on Saturday. If the extra tags could just be punched as they get used and everyone could see in real time if there were any available that would be a good improvement. It would also make it easier on the staff to not have to distribute the physical tag and retrieve the ones that weren't used after the hunt.
