NOTICE OF DRAIN MAINTENANCE

March 2, 2026

This notice is to inform you that a maintenance contract has been approved for the **Sand Creek** Drain. The contractor will be starting work within the next four weeks.

The drain maintenance may include debris **removal**. Any debris removed from the drain will be cut into manageable pieces and stacked in piles within the drain easement. If you would like the debris removed or placed in specific areas, it is your responsibility to make arrangements with the contractor and pay the associated costs directly. The contractor will grade and seed, if necessary, in all disturbed areas created as a result of the maintenance performed.

Please remove any fences, play sets or structures that are located within the drain easement as soon as possible. Also, make sure that any invisible dog fence, underground sprinkling, sump lines/tile outlet, property corner pins, etc. are marked. Care will be taken to avoid damage to anything within the drain easement; however, contractors will not be held responsible for something damaged that was not moved or marked.

Your cooperation is always appreciated in these matters. Should you have any questions, concerns, or input that you would like us to consider, feel free to contact us at 616-994-4526 or email waterresourcescommissioner@miottawa.org.

Thank You,

Adam Hughey
Stormwater Field Specialist
